

**TO BE MARRIED SATURDAY**  
Mrs. Mayne Martin and E. E. Wilcox, both of this city, have been issued a marriage license and will be married Saturday of this week. Both of these people are very well and favorably known here and the announcement of their intentions will be a pleasing one to their friends.

**TO ENTERTAIN SOLDIERS**  
Charles Stark and William Pechore will be guests of honor at a meeting of the Knights of Columbus at their hall this Thursday evening. These young men, who are members of the order, have recently returned from overseas and the Knights are going to show their appreciation of what they did while abroad.

## OLDEST WIS. MASON DIES AT HOME HERE

Mr. Purdy, said to be the oldest Mason in Wisconsin, died at his home in Grand Rapids early Monday morning. Mr. Purdy was born in 1844, at the time of his death he had been a member of the Grand Rapids lodge for more than 40 years. He was one of the pioneer residents of Grand Rapids and Wood County.

Mr. Purdy was born in Pennsylvania on May 15, 1844. He was engaged in logging and millwright work in this city for four years after which he moved to Wisconsin where he took up similar work. Later after a year spent in Plover he returned to this city, residing here continuously until 1911. Having a strong inclination toward farming, Mr. Purdy went out in South Dakota for six years where he engaged in agricultural pursuits but returned to this city again in 1888 and has lived here continuously since that time.

During his life in Grand Rapids he has been an upright and industrious citizen, one who has many friends who were proud to claim an acquaintance with him. He has been a member of the local Masonic order for the past fifty years and has held the office of Tyler continuously for the past twenty-seven years.

Mr. Purdy was married twice, his first wife living less than a year, the second preceding him in death a number of years. He is survived by two grandsons, Lee and Vern Ramsey, the former being a member of the local lodge and the latter a member of Troop G of this city which is serving abroad with the A. E. F. A sister, Mrs. W. H. Mapes, died in Milwaukee March 27th of this year, being the last of the other brothers and sisters of Mr. Purdy's family, there having been seven.

The funeral services were conducted by the Masonic Order of this city at the Masonic temple Wednesday morning, the members having turned out in a body. Very impressive services were held following with burial in Forest Hill cemetery.

Mrs. Dennis Dorney, one of the well known residents of this city died at her home on Tenth street Sunday, following an illness of several weeks. Mrs. Dorney was 60 years of age at the time of her death. She was born in Ontario, Canada, and came to Stevens Point in 1875. She was married to Dennis Dorney at that place a few years later, the family moving to Grand Rapids fifteen years ago. During her life here Mrs. Dorney has made many friends who remain to mourn her loss.

She is survived by her husband, two daughters, Sadie, who is in the Red Cross service, and Cora, who is a nurse. Mrs. Dorney is also survived by a son, John Dorney of Chicago; two brothers, John Dorney, Alvinson, Ontario; Alexander Dorney, Walker, Ont.; and Duncan Dorney, Grand Rapids, Ont.; and three sisters, Mrs. Sarah Hall of Alvinson, Ont.; Margaret Dorney and Mrs. Jeanette Lathwell of Port Huron, Michigan. The funeral services were held Wednesday afternoon at 2:30 from the house, Rev. Hanson officiating.

Charles Draeger, aged 87 years, died at his home on Chestnut street last Friday after an illness of about two years, the man having suffered from an apoplexy stroke at that time from which he never recovered. Mr. Draeger was born in Germany but came to this country many years ago, residing in the town of Kaukauna, Wis., and later moving to this city and having made his home here ever since. He is survived by his wife and one brother, Chris. Draeger, both of this city. The funeral services were held Monday afternoon at 2:30 o'clock from the home and at 3:30 from the German Lutheran church at Kellner, Rev. Radtke officiating. The remains were buried in the cemetery at Kellner.

## MADISON WOMAN TALKED TO CAMP FIRE GIRLS SATURDAY

Mrs. Gilbert Smith of Madison came up Saturday evening and talked at a meeting of the Camp Fire Girls and Sunday night, their being a large attendance at the Camp Fire girls present and a few of the parents turned out. Mrs. Smith is very familiar with Camp Fire work and has made an extensive study of it in the past. Her talk of the work was a very pleasing and instructive one to the young people. Sunday she was entertained by some of the local Camp Fire Guardians and went to the Vittor for dinner following which she was taken up the river bridge. A picnic supper near the Northwestern bridge was enjoyed that afternoon.

## OFFICERS ELECTED IN COUNTY TOWNS

The following is a list of the officers elected in the towns and villages of Wood County in the territory tributary to Grand Rapids, taken from the lists sent to the County Clerk from the respective townships. A. U. Merwin, Trustee; John Bealer and Geo. Champey, Treas.; J. P. Nash; Clerk; H. B. Fitch; Assessor; P. M. O'Brien; Justice of Peace, R. M. Johnson.

Stadford, Supervisor, Albert Stadford; Clerk, D. M. Vennatta; Treas., Chas. M. Setzkorn; Assessor, Fred Howse.

Amnundulow town—Supervisor, C. Mow; Clerk, J. O. Brown; Treas., Wm. Draxler; Assessor, Otto Franz; Crummeo—Supervisor, Robert Rozin; Clerk, C. D. Searis; Treas., E. C. Denhart; Assessor, Nick Wirtz.

North—Supervisor, Joseph P. Hohl; Assessor, H. H. Hahnemann; Clerk, J. P. Rickhoff; Treas., Gustave A. Gies; Assessor, Geo. Snyder.

Milladore—Supervisor, John D. Clark; Clerk, Joseph Chorney; Treas., James Konep; Assessor, John Jay.

Town of Port Edwards—Chairman, J. W. Lewis; Supervisor, C. Schaefer and C. G. Butternut; Clerk, Geo. Schaefer; Assessor, Edward Nitz; Assessor, R. G. Gidycz.

Runington—Supervisor, P. B. Ward; Clerk, R. R. Bowden; Treas., Jas. Casoy; Assessor, R. F. Hous.

Town of Rudolph—Supervisor, P. Zuber; Clerk, George Rivers; Treas., John Blanton; Assessor, Fred Pagola.

## MILL MAY RESUME WORK TODAY; DIFFERENCES ABOUT SETTLED

Practically positive assurance that the differences between the Consolidated Paper & Paper Co., and the unemployed men who organized the Union here last week, have been settled is seen in the following statement to the men, issued by President George W. Mead, thru John B. Lennon this noon. Mr. Lennon stated that the Executive Council of the men would meet at two o'clock this afternoon and take up the matter. George J. Schneider, organizer of the union, stated this noon that the statement covered the entire issue between the men and the company and that the Executive Committee would probably accept it this afternoon at their meeting. The mills will probably be opened at four o'clock this afternoon with the men back in their places. Mr. Meads statement, given to the newspapers and labor representatives, follows:

"Mr. John B. Lennon, representative of the U. S. Department of Labor, called to see me Wednesday noon. He stated frankly that he came with no authority whatever to force anyone to operate his mills on any basis other than that of the state's prominent officers. He stated more as mediator and conciliator with the purpose of assisting the opposing sides to find a solution of the strike if possible to do so. Mr. Lennon explained that the only complaint he had heard of was the denial by us of the right of the men to form and belong to a union in any way they pleased. He said that he understood that we did not demand 'recognition' or so called 'closed shop'." Mr. Lennon stated that he believed the country must accept laboring men with proper government control could better solve the present unrest of the world than could Bolshevism or Socialism. After stating these things, Mr. Lennon left my office. I then consulted over the long distance telephone several of the managers of larger manufacturing plants throughout the state and I decided to accept the recommendation which Mr. Lennon had made. I accordingly wrote him the following on April 10, 1919:

"Dear Sir: You may say to the men who are not for this Union that they belong to such union as they desire. This statement is made with the understanding that it does not mean the 'closed shop' existing at the present time shall remain as heretofore. Yours very truly, Geo. W. Mead, President."

Mr. Lennon intended it possible to present my letter to the mill men at their meeting Wednesday night but on account of the public nature of the meeting he decided to wait until Thursday morning at which time he called a meeting of the men. He again at my office at eleven o'clock and proposed that we write another letter accepting certain principles which Mr. Lennon had embodied in his Circular of the War Labor Board. I accepted this suggestion.

It is expected that this will complete the reconciliation and that all the men will return to their work before Thursday night. Geo. W. Mead.

**SOLD LUBECK A FARM**  
M. A. Drogger, the real estate and auctioneer, has sold a very nice farm in the town of Sigel to Frank Lubeck at over last week. The farm is adjoining to Mr. Lubeck's place and enlarges his farm to 180 acres. Mr. Lubeck intends to keep the boys at home and brought this additional strip for the young men in the family to work.

**DAILY MUSIC CO. TO OPEN NEW STORE ON WEST SIDE**  
The Daily Music Company, have made the announcement of their intentions to open a general music store in the old Lytle location on the west side near to the Sigel. The company will handle the lines they are taking care of at the present time and also a large line of popular music and instruments. They are building to properly display their instruments. The matter of handling records for their machines has become such a problem that they have decided to branch out from their present location.

**GAME SEASONS FOR 1919**  
The open season for catching any variety of trout except lake trout in Wisconsin is from May 1 to September 1, under the present law. An amendment is pending in the state senate changing the open season to from April 15 to August 25, but this will probably not be taken before the opening of the season, May 1, as all proposed amendments to the law and a law are to be considered at one hearing, the date for which has not been set. The season for catching any variety of lake trout, muskellunge, green, yellow and rock bass is from May 29.

The open season for large and small north lake bass is from June 15 to September 1. There are special laws may be taken all the year with hook and line. The bag limit for trout is 45 each day and the minimum length is 10 inches. The limit for lake trout is 15 each day, but they may be 18 inches in length. Ten pike 13 or more inches in length can be taken each day while a large number of bass are allowed. The minimum length for bass is 10 inches. Only 30 pounds of bullheads are allowed each day and there is no bag limit to porch.

## WANT TO RAISE RATES GEN. KING COMING TO INSPECT GUARD

A public hearing before a member of the Railroad Rate Commission will be held at the City Hall Friday morning at 10 o'clock in regard to raising the telephone rates in this city and the lines in the county owned by the local concern, these rates being at Nookom and Port Edwards. The company have found that at present rates the proposition would be a losing one and in order to meet the added expenses must raise the rates. As it is impossible to raise the rates of a public service corporation without the permission of the rate commission the hearing must be held and the commission hear the arguments for and against raising.

Gen. King, probably Wisconsin's greatest veteran warrior, a hero of three great wars, will be in Grand Rapids next Wednesday to inspect the State Guard company in this city. The general will be accompanied by Colonel Ramsey, another one of the state's prominent officers. Capt. Hirschel received word of their approaching visit Wednesday of this week and every effort is being made to make the local company one of the best appearing companies in the state for the inspection.

Gen. King is a veteran of the Civil war, fighting through many of the great battles in this conflict. Following the war he entered West Point and after his graduation there he remained as an instructor there for many years. Fighting in some of the hottest battles of the Sioux and other Indian campaigns the general was badly wounded. Later he was an active member in the Philippine insurrection and won fame throughout the battles on those islands. He is probably the greatest of Wisconsin's old veterans and his visit to Grand Rapids will give local people an opportunity to see a hero of many campaigns.

Some sort of a dinner at which the citizens can meet the General and hear some of his experiences being suggested, also what will be done is not known at this time.

**OTTO ROENUS SPOKE AT THE SUNDAY EVENING CLUB**  
Trying the individual to take more interest in his city, its churches, schools, manufactures, its children, and in fact everything that might aid in making the city a better place in which to live, Otto Roenus spoke at the Sunday Evening Club last Sunday night.

In speaking of the present labor situation in this city Mr. Roenus stated that the working people should realize that the average factory in Grand Rapids were working for the best interests of the workman. He explained how in some communities where they were not permitted to bring their troubles right to the door of the management it was necessary to proceed in a different way, but that where they could express their wants and explain them any time they wish as they can in this city, the present situation showed the wrong attitude.

He urged that some sort of a gathering place for the workmen be established to replace the add-on which would soon be abolished and suggested that the workers of this city might offer some substitute for this. An appeal for parents to assist teachers in their work when it was for the good of the children was heard. Mr. Roenus urged the people to back up the next Loan Drive which will open April 12 and told them not to forget the boys who had given their lives for democracy.

**ELKS MADE GOOD SCORES AT OSHKOSH TOURNAMENT**  
After rolling into the second place in the doubles and putting the five man team into seventh place, twenty Elks who went down to Oshkosh to enter the Elks state bowling tournament returned Tuesday morning, in addition to the success attained in the bowling the men report that the trip was the finest they had ever made and were more than pleased with the way the Oshkosh boys conducted themselves.

The first five man team, which rolled a score of 2,657 for seventh place, came out with a narrow margin over the second place team which rolled a score of 2,650. The third team came out with the fourth team came out with 1717. The second five man team should land in the money as well as the first but as they were very much out of luck they rolled almost the scores they are pushed down the list. Mathia and Glebe, rolling a score of 1,134 in the doubles took second place in this event, the Athletes, who won the individual event, rolled a score of 1,134 being the only team ahead of them. Mr. Mortenson and Walt Wood came in with a score of 1,069 in the doubles which should be in the money. Other scores were 1,000 by the last man were Oshkosh and Mailing, 1,001; Roenius and Northington 1,004.

## WAR TROPHY TRAIN COMING NEXT WEEK

The War Trophy train, which will tour the state in the interests of the Victory Liberty Loan Campaign, will arrive in Grand Rapids next Friday, May 10, at 2:30 on the Green Bay & Western and will spend the afternoon in the city, leaving at 4:30. It is the intention of C. A. Northington, Publicity Manager of the Drive this time, to locate the car on the Second Avenue siding at Grand Ave.

German machine guns which were captured at Belleau Wood by the American forces at the cost of many lives will be shown in this train, including a captured German machine gun of the Fokker type, anti-aircraft guns, German 77's, French 75's, howitzers, trench mortars, grenade throwers and grenades, torpedoes, handbombs, gas masks, gas bombs, and shells of every description—in short a collection of nearly all of the deadly instruments of warfare used by both the Germans and the Allies, the like of which was never before seen in this city, and probably never will again. To view it will be a liberal education of a peculiar kind and will show in a practical way just what countless millions of Uncle Sam's dollars went for to win the war, and for which the Victory Liberty Loan will help to pay.

The war exhibit train will consist of three flat cars, a baggage car and a Pullman sleeping car. The train will be a carnival of war, and a company of sailors. On the flat cars will be a cannibalized whiplow, or baby tank, thousands of which were abandoned in this country at the time the armistice was signed.

**LOCAL GAME CLUB WOULD OPEN UP CHICKEN SEASON**  
Recommendation that the prairie chicken season be opened on May 15th, that the trout season open April 15th, that state laws on open fishing seasons in all Wisconsin counties be the same and that the prairie chicken season be closed until 1921, the Grand Rapids Fish and Game Protective Association was officially organized at the City Hall Friday evening. Constitution and by laws which had been adopted by the City of Grand Rapids by way and Frank Ticknor were adopted at the meeting and about ten new members, bringing the total membership to about sixty, were taken in. A copy of the constitution and by-laws of the association was given to the members.

The general opinion of the members present was that there should be an open season on chickens this year and it was recommended that the fifteen day season with bag limit of four birds a day be advised. The men would have the season open October 15th. It was recommended that the trout fishing season be opened the first of May and remain open until September 1st, this being similar to the old law which was in effect for several years. The matter of protecting pike in the Wisconsin River and leaving the season open from May 1st to June 1st, which flows into the Wisconsin at Neenah, brought up some discussion. It was recommended that the laws covering the open seasons be similar throughout the state, the present law providing that the season be open to enter pike now while they are protected in this section. The fact that the prairies are becoming quite scarce caused the sportsmen to urge the season be season be closed until 1921.

The Club is going after a membership of two hundred in the city and a campaign for membership is going on now. The yearly dues are \$1 and the benefits which can be derived from such action cannot be estimated in dollars.

**GETTING READY FOR DRIVE**  
Atty. Theo. W. Brazzau and Orestes Garrison, who will be in charge of the next Liberty Loan Drive in this city have opened an office in the Mackinac block and are lining up the committees in the city and county preparatory to opening the drive here. People generally realize the necessity of "finishing up the job" and there will probably be little lag in locating the city's quota of bonds.

**EAGLES INITIATED**  
At a meeting of the Eagles lodge Monday evening about twenty new members were taken into the lodge. After the business meeting George Monahan with the assistance of several of the members served a nice meal in the lodge, a forty pound pork roast being the main course. The following dishes having been prepared. The Eagles are carrying on quite a membership campaign and expect to take in another big class in the near future.

**HOLDING JUBILEE BANQUET**  
Local Dry Advocates and their friends will hold a banquet at the Elks Club next Thursday night in honor of the ratification of the Dry Amendment by Congress. Gov. Willis of Ohio will be the speaker of the evening and the affair promises to be an attractive one. L. M. Alexander of Port Edwards was chairman of the state committee on prohibition.

**EXHIBITS WORK IN CHICAGO**  
Mrs. G. W. Paulus left Tuesday for Chicago where she will spend before the Chicago Literary Club at their meeting at the Chicago Art Institute Thursday evening. She expects to address the members of the Chicago Club on the work of illuminated letter work and color designs which have been done by Mr. Paulus, and an exhibit of the work will be shown at this time.

**LOVEJOY GOT SIX YEARS**  
Frank Lovejoy, the auto thief and jail breaker, was sentenced to six years at Waupun last week when he came up for trial at Milwaukee. After leaving here the man stole a large car in the city and was arrested in Indiana charged with the theft. He had promised to come up soon and call on his old friend Cliff Bluet but it will probably be six years or such a matter before he gets around to keep his promise.

## When Is a Battery Abused?

Anybody who understands batteries will tell you that there are five things that must be avoided if your battery is to serve you long and well.

- 1—Solution low, so that water line shows on plates.
- 2—Battery overheated or overworked.
- 3—Battery charged in reverse.
- 4—Battery flushed with acid.
- 5—Foreign substance added.

Any of these are positive abuses, and will injure your battery permanently.

If you are looking for a cheaper battery, I can sell you Ever Ready Storage batteries for any model Buick, Velie, Oldsmobile and Chevrolet for \$27.00 each installed.

Do not be misled by the statement, Just as good as Willard. For Willard batteries are standard equipment on 90% of automobiles, and last a little more, but are worth it.

## Build a Home

The people who today own their own homes have shown their confidence in the community in the past by investing their savings in that community. They are the substantial citizens of the community. The small investments that they began have grown to large and substantial investments, and while they were saving their investments and had them in homes their credit was always good and aided them over whenever difficulty arose. Confidence, one of the essentials of success, comes from the knowledge of ownership of a home.

Mrs. Henry Trausmer died at her home on First street last Thursday morning following a short illness. Mrs. Trausmer was thirty-eight years of age at the time of her death. Born in Jefferson county, Wis., she was married to Henry Trausmer in the southern part of Wisconsin. After her marriage she moved with her husband to Grand Rapids, the family having made their home here for the past four years. She is survived by her husband, her father, a brother and a sister, the latter two residing at Watertown. The funeral was held Saturday afternoon at 2 o'clock from the home, Rev. H. B. Reed officiating. Interment was made at Forest Hill cemetery.

Mrs. Richard Demore, one of the old residents of Grand Rapids died at her home on Higgins street Monday morning following a long illness which extended over several weeks. Mrs. Demore had made a wide circle of friends here and was well known especially by the older residents of the city. The funeral services were held Wednesday afternoon at 2:00 from the house, Rev. Noel J. Breed officiating.

The man who is kicking all the time doesn't get any better results than the man who never kicks at all.

RELEASE IRVING HALL

Irving Hall, the lad who caused considerable trouble at the Howland and Lincoln schools with petty thefts and carrying concealed weapons, has been released from the county jail where he was held under observation and will go to work. Hall, a youth of 17, had been in the county jail took much of this out of his system and he promises to be a better citizen.

REGISTER OF DEEDS BUSY

Register of Deeds Henry Eble reports that the past week has been the busiest in the history of the office since he has been Register, and that during four days one hundred and ten papers with an average of about twenty-eight papers a day were handled and registered. Most of the papers were real estate deals and a few were soldiers registering their discharges. About ninety-five soldiers have filed their discharges up to the present time. Work of registering the discharges has been aided a great deal with a loose leaf book form for this purpose which carries the discharge form in printing, thus eliminating copying the discharge on a typewriter.

around to keep his promise.

## LOCAL ITEMS

Roy Potter underwent an operation at Riverview hospital Saturday.

A baby girl was born to Mr. and Mrs. Albert Natwick at the hospital Sunday.

Rudolph Moravian Church. Sunday, April 13th, at 2:30 P. M. there will be Confirmation Service, followed by the Lord's Supper. April 27th a special Master Program is to be rendered.

**MURDERERS AND DRAFT DODGERS UP FOR LIFE**

Convicted of the murder of Harry Jensen, station agent at Withee, and of evading the draft law, Frank and Leslie Kreuger of Neillsville were given a life sentence at the state prison at Waupun last Friday.

The fight occurred last summer, when it is alleged the Kreuger boys were evading the drafting, two being falling to register and two being deserters. The state militia was called out in the surrounding territory. Upon approaching the Kreuger homestead fire was opened and Harry Jensen was killed. Ex-district attorney W. J. Rush said: "All of these brothers were fugitives from justice. Two were deserters from the army and two had not registered Sept. 12. They expected the officers and they were expecting to resist them when they came. It makes no difference who fired the shot that killed Jensen. All the defendants were equally guilty, for they had conspired together to resist the law. Mrs. Kreuger is as guilty as her sons, for she counseled them to this end, and it was owing to her counsel that they acted as they did."

Immediately after the conclusion of this case, Mrs. Kreuger who had been freed was re-arrested on a charge of inciting to resistance of the draft law, and it is believed she will be tried in federal court, either at Madison or Bar Claire.

**TO RED CROSS WORKERS**

On April 5th we packed and shipped the last of the Refugee Clothing filling all quotas assigned to this Chapter by the American Red Cross, making a total of 10,181 garments. This closes the activities of this committee of Grand Rapids Chapter, of which it has been my pleasure to be the chairman.

I am taking this opportunity to thank the ladies of Grand Rapids and the ladies of all the branches connected with this Chapter, for all the generous and efficient work they have done that has earned the well merited praise of the Central Division.

The workers have all responded promptly and given generously of their time, and it is greatly appreciated by the Chapter and the Chairman of the Committee.

Mrs. E. W. Ellis, Chairman Hospital Garments and Refugee Clothing.

"Daddy, what is that 'queer-looking crack' in your glasses?"

Observing daughter is not the only one who notices that "queer-looking crack" in Daddy's glasses. Everybody notices it. It mars his appearance; it makes him look old.

## KRYPTOK GLASSES

Kryptoks (pronounced: Crip-tocks), without that conspicuous age-revealing "crack" or seam, give the convenience of NEAR and FAR vision in one pair of glasses. There is not the slightest trace of a seam or lump. The two powers (the fovea) for close work and the upper for distance are joined together in one solid, smooth, crystal-clear piece. Kryptoks look exactly like single-vision glasses, they enable you to see both near and far with equally keen vision. That's why they are known everywhere as the "invisible bifocals."

Call and let us give you further information concerning these universally approved bifocals.

I also fit Glasses and replace broken lenses of any strength or size at a very low cost from 50c up. Phone 511 and make special appointment or see me at the Citizens National Bank on every Tuesday from 1 to 3 P. M.

I pay highest market prices for Liberty Bonds and Thrift Stamps, Diamonds, and Gem Watches, old gold and silver.

A. P. HIRZY  
650 8th Street N.  
Grand Rapids, Wis.

# Announcing Society Brand Clothes For Spring

Society Brand Clothes are clothes of the better sort for men and young men of all ages.

They proclaim alertness, good taste and care for detail; yet they are never extreme in style or pattern.

Our selections are so varied in patterns, colorings and styles, and the price range so wide, that men and young men with the most positive tastes and style preferences can make immediate selections.

The Society Brand label is the maker's guarantee of all-wool quality and your complete satisfaction.

## TOLEDO POLICE STOP DEBS RIOT

Break Up Mob of 5,000 After It Attacks City Memorial Hall.

## ONE ALDERMAN IS ARRESTED

Crowd Storms Building, Breaking Windows and Doors, Then Parade Streets Shouting "To Hell With Mayor!"—Debs Not Present.

Washington, April 1.—Eugene V. Debs' application for a re-hearing of his appeal from conviction and sentence to ten years' imprisonment for violating the espionage act was denied by the Supreme court.

Toledo, O., April 1.—When 5,000 men were refused admission by city officials to Memorial hall, a city building where Eugene V. Debs was scheduled to speak, 5,000 persons stormed the place, broke windows and doors, and then paraded the streets crying, "To hell with the mayor!"

And all the time Debs was in bed in a Cleveland hotel, too ill to appear in public.

A substitute speaker for Debs appeared about 3:30 o'clock, but when he attempted to make an address in public he was chased away by police.

More than seventy-five men were arrested, including one Socialist, a member of the city council. Charges of inciting riot were placed against them, but after 300 policemen had succeeded in breaking up the mob the prisoners were all released without bail.

Announcement that Debs would not be permitted to speak was made late Saturday night, after the Socialists here had prepared to handle an overflow crowd. The announcement appeared in the morning papers, and that was the first notice the Socialists had that their meeting could not be held.

When the hour for Debs to speak arrived there were at least 6,000 men and women congregated at the William McKinley monument in Court house park, across the street from Memorial hall.

A man mounted the base of the monument. "We'll use Memorial hall this afternoon if we have to wade through blood to do it," he shouted. A policeman grabbed him and he was thrown unceremoniously into a patrol wagon. The man who seemed to speak next also was arrested.

As the crowd seemed intent on occurring the riotous began to hunt and beat the officers. Clubs were thrown and the crowd was made to move. Then came the parade through the streets and cries of "Down with the mayor!" "Hang him!" "To hell with the police!" and others of a similar nature.

It was after five o'clock before the police were able to disperse the crowd. First floors of the dozen occupied street corners. Howls of rage were heard from the demonstrators. Street cars were held up and threats of serious outbreaks were to be heard on every hand.

Mayor Cornelius Schröder, who issued the order preventing the Debs meeting, in a statement said that hereafter no meeting would be permitted anywhere in the city where it is suspected a man of radical tendencies will speak.

## U. S. TO DEPORT 200 I. W. W.

Attorney General Says 4,000 Enemy Aliens Were Interred—To Parole 600 Harmless Ones.

Washington, March 29.—Attorney General Cummings today announced that about 4,000 enemy aliens were interred during the war. He said that 600 of the harmless ones, others would be repatriated, and 900 dangerous persons would be held indefinitely, including about 200 professed members of the I. W. W., or anarchy organizations whose cases would be referred to the department of labor with a view to their deportation.

"The residue of these 900 dangerous alien enemies," said the attorney general, "contains a large number of convicted criminals, and many others who, in the view of the attorney general, ought not to be permitted under any circumstances to remain in this country after the declaration of peace."

## 6 MONTHS TO PAY FOR BONDS

Liberal Payment Plan for the Victory Loan Announced by Treasury Department.

Washington, March 29.—Terms of payment of the new Victory Liberty loan announced are the most liberal ever offered by the government. Deferred payments may be extended over a period of six months, from May 10 to November 11.

Many Killed in Korea Riots. Peking, April 2.—Many persons were killed and wounded during another anti-Japanese demonstration in Seoul, Korea. Hundreds of persons were arrested by Japanese soldiers. The situation is serious.

Lieutenant Kessler Wins Shoot. Davenport, Ia., April 2.—Lieut. W. E. Kessler, Des Moines, won the national shooting match on a score of 459, according to figures compiled at headquarters here. T. K. Lee of Birmingham, Ala., was second.

Ukraine Gets Apology. Berne, April 1.—The Ukrainian government has released members of the Ukrainian mission arrested at Budapest, restored property belonging to the mission valued at \$200,000, and made an apology to Ukraine.

Roumanians Defeat "Rods." Berne, April 1.—Roumanian troops inflicted a crushing defeat on Bolshevik forces along the left bank of the Danube, near Jankovits (Bessarabia). It was announced in an official dispatch from Bucharest.

Tie Up Emperor's Fortune. London, March 29.—An embargo has been placed on the private fortune of former Emperor Charles until his official abdication has been received at Vienna, according to reports from that city, transmitted by German wireless.

Robbers Take \$50,000. St. Louis, March 31.—Three masked bandits obtained \$50,000 when they looted the express car of a Pullman train near Memphis, according to information received at the office of the Frisco railroad here.

## QUIZ MEXICO ON GRANTS OF LAND

Washington Wants to Know About Reports of Concessions to Japanese.

## QUERY SENT U. S. EMBASSY

American Company Is Said to Have Been Robbed of Million-Acre Tract in Question—\$1,000,000 Spent in Irrigation.

Washington, April 2.—The American embassy at Mexico City was instructed to make inquiries concerning the reports that the Mexican government has granted agricultural concessions to Japanese in Lower California, and to report the facts as quickly as possible.

No official information has reached the department about the concessions, and surprise was occasioned by the dispatch from Mexico City quoting General Amador Anguier, undersecretary of development and agriculture, saying they had been granted.

The American government is interested both because of the apparent success of the Japanese in obtaining a long-sought foothold in Lower California, and because the tract of land involved was developed and is claimed by an American company whose rights were declared forfeited by the Mexican government in 1917.

The land, upward of a million acres below the California border, was granted by the then President Diaz to the California and Mexican Land company of Los Angeles, of which firm was the leading figure.

It was desert land, with nothing growing on it but sage brush, cactus and chaparral. The soil, however, was rich in places 30 feet deep formed by deposits for generations by the Colorado river. It produced nothing for Mexico and the expense of putting water on the land was so great that no one in Mexico would undertake it.

The American company spent more than \$1,000,000 in irrigation work before the tract was productive. One of the requirements of the concession was that the land should be irrigated, and the American owners refused to sell any of the land to the Japanese or to grant long-term leases.

On April 7, 1917, the Mexican government declared the tract confiscated, according to the statements of General Aguirre and then, apparently, the Mexican government opened negotiations with a Japanese syndicate.

Acting Secretary of State Phillips said that the Los Angeles company proposed about two years ago to grant a Japanese corporation long-term leases on a large portion, if not all, of the tract. At that time the company still was unable to maintain American settlers there, and when the state department objected to the proposed leases the company dropped its negotiations with the Japanese.

When Senator Phelan of California recently informed the department that negotiations had been renewed, the company's attention was directed to the American government's attitude.

Paris, March 31.—The membership of each of the individual states in the executive council of the league of nations, Reuter's Limited says it understands, will be increased from two to three for each state to be represented in the council. The third member probably will be a representative of labor.

To Handle 1919 Wheat. Paris, April 2.—President Wilson acting on a recommendation of Herbert Hoover, food administrator, has requested Julius H. Barnes, president of the grain corporation of the United States food administration, to head an organization for handling the 1919 wheat crop under the congressional guarantee.

Orders Auction of Seized Liquor. Nashville, Tenn., April 2.—Large quantities of liquor stored in the custom house here will be sold at auction to Kentucky and other wet states under an order issued by Federal Judge Sanford.

Debs May Call Strike. Akron, O., April 2.—Eugene V. Debs, Socialist leader, threatened to call a general strike of his party throughout the country on the day he starts serving his ten-year sentence under the espionage act.

Sees Labor Shortage in U. S. New York, April 1.—An American job shortage will have been transformed by midsummer into a labor shortage, John B. Donahoe, director general of the United States employment service, predicted.

Orders Discharge Ruched. Washington, April 1.—General March announced that he had ordered soldiers discharged within 48 hours after arrival at demobilization camps unless special conditions made it impossible.

Huns Must Assist Poles. London, March 29.—The Paris correspondent of the London Times said he understood the "Big Four" have decided that Marshal Foch shall demand the Germans facilitate the landing of Polish troops at Danzig.

Fletcher Estate to Harvard. New York, March 29.—The residuary estate of Horace Fletcher, expert on dietetics, whose will was filed here, is left to Harvard university, the income to be used "to foster knowledge of beautiful nutrition."

Turks Slay 48 Armenians. Athens, March 29.—Advices from reliable sources at Constantinople state that a massacre of Armenians by Moslem gendarmes occurred recently at Aleppo. It is reported that 48 Armenians were killed.

Deny Masaryk Has Quit. Washington, March 29.—The Czechoslovak mission here received an official denial of the report of President Masaryk's resignation, which was sent from Berlin by way of Copenhagen early this week.

Baker to Sail April 6. Washington, March 29.—Secretary Baker now plans to sail for Europe about April 6. The time of his stay abroad has not been determined, but the secretary expects to be gone only a few weeks.

## ANOTHER VICTIM

## MANY DROWN IN EAST

FROM FOUR TO TEN PERSONS PERISH AT LAUNCHING.

Thousands See 150 Plunge Into the Delaware River at Bristol (Pa.) Shipyard.

Bristol, Pa., April 1.—Between four to ten persons are believed to be dead as the result of the collapse of a temporary scaffolding at the Merchant Shipbuilding company's yard here during the launching of the freighter Waukena.

Nearly 150 persons were standing on the scaffold at the time of the tragedy, and most of them were thrown into the Delaware river. It is estimated 145 of these were rescued.

According to the thousands who had assembled to see the launching and were eyewitnesses of the catastrophe, the scaffolding simply seemed to turn over like a giant turtle, precipitating its occupants into 25 feet of water.

The accident happened exactly four minutes before the launching was scheduled to take place. Divers, Bristol and Harriman police and firemen were soon grappling in the swift water of the Delaware for the victims, but it is feared that many were carried against the piling of the ways and docks at the great shipyard, and that the actual death toll may never be known.

At the Harriman hospital it was stated that preparations had been made to handle 20 bodies, and it was said that officials expected the death toll to reach that number.

## BANDIT SLAYERS CAPTURED

Three Men Taken at McHenry, Ill., Said to Be Robbers Who Killed Policeman.

Chicago, April 1.—Police on the lookout for the three men who turned out the country side on account of their depredation in Racine and Kenosha, Wis., were notified that the bandits had been captured at McHenry, Ill. They plundered the American Brass company vault at Kenosha and murdered a policeman and escaped in a stolen taxicab with \$50,000.

The three suspects say they are Leonard L. Duffon of 2422 North Sawyer avenue, Chicago; R. E. Carls of Milwaukee, Wis.; and Sarkis Boshnakian of Washington, D. C.

## 5,500 U. S. SOLDIERS MISSING

Reinterments From Isolated Graves Likely to Identify Many Americans.

Washington, March 29.—General Pershing reported to the war department that there are still 5,500 officers and men of the expeditionary forces listed as missing. This total compares with the British official figures of 161,800 missing and the French 200,000.

All of the 5,500 names have been published, the report said. Reinterments of bodies from isolated graves, the centralized cemeteries is furnishing additional identification in a number of cases, and for this reason the records of the grave registration service are being carefully studied.

## War Tank to Climb Pike's Peak

Washington, March 29.—Pike's peak will be ascended by a battle tank as an advertising feature of the Victory Liberty loan before the loan campaign opens.

## Kolchak's Army Advances

London, April 1.—Admiral Kolchak's army continues to defeat the Bolsheviks, according to delayed official advices received from Omsk. The anti-Bolshevik advanced 50 miles and took 5,000 prisoners on the Ural front.

## Pope Honors Iowa Man

Rome, April 1.—Pope Benedict has appointed Rev. Fr. Thomas William Drumm of Cedar Rapids, Ia., to be bishop of Des Moines. Rev. Fr. Donald, Martin of Olin has been appointed bishop of Argyle.

## U. S. Troops to Russia

Archangel, March 31.—The first detachment of American railroad troops are destined for work on the Murman railroad have arrived on the Murman coast. Other detachments are expected to follow soon.

## Big Pay for Ebert

Berlin, March 31.—The salary of President Ebert, which has been the subject of discussion in the press recently, is officially announced to be \$25,000 monthly, with no perquisites or expense allowance.

## U. S. Presents Films to Jap Prince

Washington, March 29.—The state department has presented to Prince Yoshihito of Japan the motion picture films taken of the prince and his party during the visit to the United States last summer.

## Turks Slay 48 Armenians

Athens, March 29.—Advices from reliable sources at Constantinople state that a massacre of Armenians by Moslem gendarmes occurred recently at Aleppo. It is reported that 48 Armenians were killed.

## Deny Masaryk Has Quit

Washington, March 29.—The Czechoslovak mission here received an official denial of the report of President Masaryk's resignation, which was sent from Berlin by way of Copenhagen early this week.

## News of the Badger State

Prarie du Chien—The demand for pearls is greater than the supply, according to buyers. Therefore Wisconsin pearl and clam fishers are planning to begin earlier than ever to go after the clam crop of southwest Wisconsin. Pearl fishing is the most lucrative of trades in the Orient and in Wisconsin many a pearl fisherman has become rich, not only thru the market for pearls, but because there is a ready market for the shells in Mississippi river button factories.

## Waukena—The first annual county dairy show held here assured the association of the popular support of the exhibition, and makes certain its continuance in years to come. Is the view of officials. More than 4,000 persons attended. Besides a large attendance from all parts of this county, there were a number of cattle experts from outside the city. No effort was made to show stock for sale, but orders were received during the show for one \$800 and one \$1,000 bull.

Manasha—The capture of 15 cents between Manasha and Appleton has been restored through voluntary action of the Wisconsin Traction, Light, Heat and Power company in response to a plea from Appleton merchants. The fare of 20 cents was established about a month ago under an order from the railroad commission, but no commission order governs the present action.

## Manasha—The capture of 15 cents

Manasha—The capture of 15 cents between Manasha and Appleton has been restored through voluntary action of the Wisconsin Traction, Light, Heat and Power company in response to a plea from Appleton merchants. The fare of 20 cents was established about a month ago under an order from the railroad commission, but no commission order governs the present action.

## ASKS NEW LAW FOR CANNING FACTORIES

Commissioner Weigle Favors Proper Supervision.

### TOWNS MAY OPERATE PLANTS

Bill Offered by Senator Kleist Gives Villages Power to Conduct Warehouses for Sale or Distribution of Food Products.

Madison.—Provision for greatly increased powers for counties, cities and villages in proposed bill which was presented last week by Senator Kleist of Chetek county. The bill provides that any county, city or village may establish and operate plants or other facilities for the purchase, sale, storage, distribution of food products to or for its citizens, pursuant to regulations adopted by the governing body of such county, city or village.

The bill provides that any county, city or village may purchase, lease or acquire lands, buildings, plants or equipment to erect and construct buildings and to equip and maintain the same and by law levy or the issue of bonds to provide the necessary means for purchasing, selling, storing or distributing such food products.

Wisconsin now produces 40 per cent of all canned peas put up in the whole country. This is at least the estimate of Dairy and Food Commissioner Weigle. The canning industry, the commissioner says, is growing at a surprising rate, and some peculiarities of climate and soil give to Wisconsin grown and canned peas especially a superiority over all others.

Commissioner Weigle believes that a special law applying to canning factories and their products should be passed in order that proper supervision can be given the food products turned out by them. Inasmuch as it is impracticable to go to a canning factory in the midst of its rush season, and order changes or non-payment of a shut-down, it will be necessary to do all supervising work with canning factories before the opening of the season.

Inspection is, of course, carried on during the actual canning season, but necessarily this must be limited to sanitation chiefly. As canned goods are coming to form each year a larger part of the country's food production, closer supervision than the dairy and food department has been able to give under the present laws is essential, hence the commissioner's desire for a law especially applicable.

A fight will be made when the legislature reconvenes next week to secure a reconsideration and the adoption of the Commissioner bill providing for a legislative investigation on the subject of taxation. The bill was defeated by a vote of 34 to 39, but Assemblyman J. W. Conner of Douglas county has announced that he intends to get further action of the legislature on the measure. The bill provides for a legislative committee of two members, three assemblymen and two senators, to conduct the probe. An appropriation of \$12,000 was to be at the disposal of the committee.

Assemblymen Coe and Edwards spoke against the bill, claiming that the tax commission now had power to conduct such an investigation and report to the legislature. Assemblyman E. W. Knapp introduced a resolution that unless some action was taken by the legislature on taxation measures there would be a special session before next November.

The substitute amendment to the Axel Johnson bill removing farmers' cooperative associations from the provisions of the anti-trust law was amended without opposition. Four new amendments were offered to the Klein bill regulating the place of employment of women labor, and the bill, with amendments, was sent back to the committee on labor.

Without a dissenting vote the house passed the Peterson bill requiring all street and intersection cars, before crossing railroad tracks, to come to a stop and a member of the crew to go ahead and look before the car can cross. This bill will prevent the use of one-man cars where railroad crossings intersect street car lines.

On a bill offered in the lower house of Assemblyman Miles Hinnman the Pullen bill increasing the minimum salaries of county superintendents was laid over until April 10 to permit the legislators to consult with their constituents. The reappointment of Barney N. Moran, Milwaukee, as state oil inspector for the term ending April, 1921, will not be taken up until after April 8.

The house advanced the Perry bill to increase the compensation of legislative employees, half-drawn fish and game bills of local importance were indefinitely postponed.

### Large and Small Revenue Taxes.

The smallest liquor and tobacco tax to be paid in the internal revenue office of Milwaukee was received when Collector Paul A. Henmy received a check of 8 cents from a Milwaukee county man. This was for 15 cigars. The largest tax to be received for the payment of the tobacco tax was \$10,000. The largest liquor tax received was \$30,000 while the smallest liquor tax was \$0.40 for two gallons of whiskey by a saloon man in South Milwaukee.

### Proposes New Banking Regulations.

New banking regulations are proposed in a bill offered in the lower house of the Wisconsin legislature by Assemblyman Harry Hettow of Chetek county. It would limit the dividends on state bank deposits to 6 per cent, and provides many other stringent regulations. Of the nearly one thousand banks in the state 225 are state depositories. The bill provides that every depositor who has had \$500 or more in a bank for a year shall be entitled to vote at the stockholders' meeting as a regular stockholder.

### Soldiers Ask for Legislative Aid.

The Wisconsin legislature has again been petitioned by soldiers to aid in securing their release so they may return to their homes this spring. The house committee on public welfare, in accordance with the soldiers' request, is offering a resolution asking the department to release farm boys in the service. The action is called forth by a petition from 50 farm boys from Wisconsin at Camp Shelby, Miss., asking the Wisconsin legislature to aid in getting their discharge from the army.

### Bill to Save Employment Bureaus.

The free employment bureaus of the state were saved from being shut down on April 1, due to a lack of federal appropriation, when the joint finance committee introduced in the senate a bill carrying an emergency appropriation of \$22,000 to maintain these bureaus until July 1, with the unanimous recommendation of the full committee that it be passed without delay.

Only the fact that there were not a sufficient number of members present to pass financial measures prevented the committee bill from being acted upon by both houses before the legislature adjourned. It was advanced to a third reading in the upper house, and will probably be passed just as soon as the legislature meets after the vacation.

The bill places the control of employment bureaus in the hands of the industrial commission for an experimental period of three months, thereby transferring control from the federal government, which has failed to appropriate for the maintenance of the bureaus, to the state. Most of the bureaus in the state would have been forced to go out of business on April 1.

"An emergency matter," states the bill, "the industrial commission is hereby authorized to continue and conduct until July 1, 1919, the free employment offices throughout the state that it may deem necessary to take care of the employment situation."

### May Restore Game Fishing.

The fish and game commission of the assembly is having drafted a bill designed to restore game fishing in Lake Winnebago and tributary waters. The measure will empower the conservation commission to take out all the rough fish that can be found and to dispose of whatever game fish are taken in the nets, to pay the cost of the work.

### Socialists Opposed to University.

The socialist party in the legislature is opposed to the university. For the first time since their delegation has been formidable in the legislature the Socialists have turned against the University of Wisconsin. Senator L. A. Arnold, the senate leader of the Socialists, served notice to this effect last week when he attacked the general appropriation bill carrying \$5,002,000 for the biennial period. He declared that reactionary influences had secured the university in recent years and that they had been especially pronounced during the period of the war. The four socialist votes were registered against the appropriation.

### Knife Was Made in Wisconsin.

An exhibit proving that all cutlery in the world is not "made in Germany" went the rounds of the state capitol when Superintendent of Public Property M. E. Hunsfeld exhibited a knife that was picked up on a hillside in Platteville, Wis., and identified as having been made in Wisconsin. The knife was found by a student of Mount Union, former secretary of state, who is at present directing work of the Red Cross. "The mark on the knife read: 'Made by the village blacksmith, Watertown, Wisconsin.'"

### Still Working on Whey Butter Law.

By a vote of 19 to 9, the senate killed the Olson amendment to the whey butter law, after a long debate, and Senator Ruethe immediately offered another substitute amendment to remove the law from the whey butter. Senator Burnett objected to the introduction of the substitute and the motion will be argued at another date.

### Trunk Highway System Bill.

The joint highway committee introduced the trunk highway system bill authorizing the construction of 7,000 miles of new road, the work to start April 1, 1920. The bill provides virtually the same method of laying out the highways as was adopted two years ago under the old law.

### Wants State Fair "Protected."

John P. Sheldon, Darlington, would remove all competition for the state fair. He introduced a bill requiring dates for the state fair to be announced six months in advance and specifying that any county having its fair the week of the state fair shall be denied state aid.

### Pass Binder Twine Measure.

Under suspension of the rules both houses passed a bill permitting the use of the binder twine for the purpose of the purchase of twine for the manufacture of twine at the prison. The amount used will be \$900,000.

### Oppose Teachers' Pension Bill.

Opposition to the new school teachers' pension bill has developed in the Milwaukee Teachers' association. Teachers say it is their belief that the school board is planning to empower itself with the means of arbitrarily cutting any teacher. The new bill, framed by C. W. Babcock, assistant city attorney, provides for the pensioning of teachers after 30 years of service, while the old law makes retiring optional with the teacher. Efforts are being made to have the measure amended.

### Locusts Due in State This Year.

This is a plague locusts, yet destroying thousands of trees and bushes in Wisconsin this summer, is predicted by C. E. Fawcett, superintendent of the Milwaukee County School of Agriculture. The seventeen-year locust or periodical cicada will cover all Wisconsin this year. There is no hope of preventing the locusts from hatching and scattering larvae in other trees since all experiments to check their spread have failed. The Wisconsin locusts will be the tenth brood of the 1002 larvae," said Mr. Fawcett.

### State to Buy 40-Acre Farm.

The assembly passed, under suspension of the rules, a bill from the committee on finance, authorizing the purchase of 40 acres, at \$250 an acre, of land adjoining the State School for the Blind at Janesville, on which it had an option. Kurtmacker explained that the option will expire April 1, and the owners were anxious that the option expire, in order that they might sell for a higher price to an industrial company. The land will be used to teach farming to blind students.

## TARIFF QUESTION COMING UP AGAIN

FORDNEY OF MICHIGAN HEADS WAYS AND MEANS COMMITTEE IN THE NEW HOUSE.

### MAJORITY TO START THINGS

Will Formulate Program, but Fact That Administration Is Democratic May Check It—Esch Is to Handle Railroad Legislation.

By EDWARD B. CLARK.

Washington.—When congress reconvenes the committees of both house and senate will have Republican majorities in control therein. Perhaps the chief interest in one way centers in two or three great committees in the house, because those particular committees will formulate the legislation which, if enacted into law, will be most far-reaching.

It must be remembered, of course, that the administration is Democratic while congress today is Republican. Therefore it seems hardly likely that any great doctrinal legislative measures of the Republican party will be made into law, because presumably a Democratic president would not approve them.

Joseph W. Fordney, Republican, of Saginaw, Mich., will be the chairman of the ways and means committee in the coming congress. It is this committee which will formulate tariff legislation. Mr. Fordney is known as a believer in a high protective tariff. There are some other Republicans on the committee who believe in a more moderate tariff, but taking the majority of the committee all in all, it represents such a tariff as would be the basis of the Democratic majority of the same committee in the last house.

What will the Republican party do with tariff legislation with a Democratic president in the White House? The answer is that it will do what it can in a program very at the next session or two, and then may have to let the program go over until a Republican president is elected in order to see it put into effect.

### Higher Tariff May Be Prevented.

It is within the range of possibilities, or as some would prefer to put it, of probabilities, that a Democratic president will be elected and with him a Democratic congress. In such a case the Republican program, although even put into legislative form during the next session or two, never could be given the effect of law. It is certain, however, that the Republicans in the next two years in congress will formulate a new tariff bill.

The tariff we have always with us. It was with us during the war, although hostilities, through stoppage to a great extent of imports, built up about the highest tariff wall that it was possible to erect. In other words, we had comparatively few imports, and as a comparatively little came into the country the tariff seemingly ceased from troubling. Nevertheless, it was there, and still with us, because men in congress still were thinking on it, and were often talking on it.

John Jacob Besch, Republican, of Wisconsin, will be chairman of the committee on interstate commerce. Mr. Besch's name was connected with the first railroad rebate bill which went through the lower house in the time of Theodore Roosevelt. It was known as the Besch-Townsend measure. Curiously enough the name of Mr. Townsend, now United States senator from Michigan, was more intimately associated with the bill than that of Mr. Besch, whose name led the couplet. That first railroad rebate bill, as it generally was called, went through the house, but the senate failed to act, and it was not until the next session that another bill formulated in the house, and known as the Hepburn measure, was passed by both houses and signed by the president.

Now Mr. Besch of Wisconsin is to have another hand at railroad legislation. It is a big job that he has ahead of him. It must be remembered again that the administration is Democratic. A bill which shall deal with the tariff of the railroads, and which must have the sanction of the president, is to become a law, must be free from an approach to partisanship. Otherwise a veto may await it.

### Fitting Roosevelt Memorial.

Before the members of the Roosevelt permanent memorial national committee are two plans suggestive of the form which the memorial should take. Both of them are appealing and it seems to be generally believed that both may be adopted.

One of the plans has in view the providing of a fund for the Americanization of incoming foreigners, and the other is for a fund for the establishment in Washington of a foundation for the conservation of wild life, primarily in the United States but incidentally throughout the world.

It is with the second plan that this article concerns itself. The Americanization plan is a good one, and it is a good thing that certain events have happened. The women of this town are broader minded, more kindly in their judgments and kinder working than ever before in their lives. It is difficult for them today to turn away from the work of three years to give themselves over to the play of other years. They probably will find work for their hands to do even when the peace pact finally is signed and the world settles back into something like a semblance of the former properties.

### War Has Levelled Social Ranks.

Washington as it did in Paris. How long they will remain leveled no one knows, but it is probably a goodly and a goodly thing that certain events have happened. The women of this town are broader minded, more kindly in their judgments and kinder working than ever before in their lives. It is difficult for them today to turn away from the work of three years to give themselves over to the play of other years. They probably will find work for their hands to do even when the peace pact finally is signed and the world settles back into something like a semblance of the former properties.

### Marion Coming On.

Living on a farm, the children hear their father talk of the different crops. Their little neighbor was over to visit my 1-year-old daughter, who has never been to her father's home, she said to her mother: "Marion is certainly getting a fine crop of hair now."—Chicago Tribune.

### Shown Greatness in Youth.

At the age of 14, and when a sophomore at Cambridge, Francis Bacon left the university in disgust, declaring that the whole system of education was radically wrong at Cambridge and everywhere else. And Bacon lived to prove that he was conservatively right in his contention. So we suppose his teachers have been wise enough to let him go, and therefore had difficulty in securing a degree.

### An Important Question.

Jerry—Was your old friend Bloke interested in the liquor question? Harry—Why, he could hardly wait to answer, "Gimme the same."

### He Was Wrong.

The married man concluded to try out his new theory. Addressing his spouse, he said: "My dear, I should like to go to bed tonight at several hours. Mr. Jones is not ill, and does not require any sitting up with. If he did, I should let his wife do it. Mr. Jones is perfectly well so far as I know, except for a certain itching for a poker game. He is notoriously a rotten poker player, and very likely could be kicked for several dollars in the course of the evening. There might be something to drink—he did not specify concerning that. He only said my presence would be appreciated. I am sure that since I have told you the truth about this affair, you will consent to my going. Am I right?" He was not.

### Never Satisfied.

"A good appetite ain't allus a blessing," said Uncle Eben. "No matter how much a pig gets to eat he allus goes through life worryin' 'bout how hoary he is."

## HARDER TEST TO BE IMPOSED ON BILLIARD EXPERTS BY EMPLOYING 18.1 BALKLINE

For the Conservation Plan. Among the supporters of the conservation of wild life plan which has been submitted to Col. William B. Thompson, chairman of the memorial national committee, are George Shiras, 3rd, famous faunal naturalist; E. W. Nelson, chief of the bureau of biological survey in the department of agriculture; Charles Sheldon, sportsman, naturalist and conservationist; and John E. Burroughs, president of the American Game Protective association.

The contention of these men is that the colonel's well-known interest in nature throughout his life, both as one of the keenest and most observant of American field naturalists, and as a hunter of big game, justifies in full measure a memorial of the kind proposed.

The project calls for the establishment at Washington of an institution to be known as the "Roosevelt foundation for the conservation of wild life." It is proposed that the foundation be governed by a board of trustees under whom there shall be a director to control its activities. In a general way the activities will include:

Investigations necessary to supply accurate information concerning wild life; to secure data concerning valuable species threatened with extermination and to make the foundation a central bureau from which conservationists can obtain the necessary facts to work effectively.

Educational work would be undertaken to keep the public informed of the importance and value of the birds and mammals. "This part of the work, of course, would be undertaken largely through publication and by encouraging the activities of organizations and individuals.

### Red Cross Service Stripes.

"Ove there if a war was in the front line of the hardest fighting, but was in France for less than six months, they gave him a blue service stripe, while the man who was at Bordeaux, or some other place miles removed from the fighting, was given a gold stripe if he was in France for six months. Somehow this does not seem right.

In the United States today the Red Cross officials are becoming the women who are the cause for a fixed number of hours. Conditions of health and opportunity being equal, it seems perfectly right that there should be a difference made between the women who worked for a short time and those who worked for a long time, but also it seems possible that a hardship and an injustice is worked if a woman who did all that there was in her to do and broke down under the strain, "invaluable" as the service stripe is, should not be given the same honors that go to a sturdy one who passed through the ordeal.

Red Cross work has not stopped and it never will stop, for the Red Cross is an organization which must go on in peace and in war. Many of the war-time activities have ceased, especially knitting and the surgical activities. Garments and kinds of dressing which are needed so hundreds of Washington, and still ply their needles, their scissors and their sewing machines.

### Washington Society Reviving.

The capital always has low plunging into the swift current of social stream. The desire to be in several times a day was just strong on the eve of this week had been at any time since Dolly Madison kept open house. As soon as the war was sounded from the department cover the social stopped running, except on the slow when the flood gates of the social were opened. Even when a man given for the benefit of soldiers' families or civilians there was a same heart in the thing nor the spirit in the festivities that were left before the day when one went to war or into the field.

Washington was in a way a desert for three years for the hardship of the upper waters of the stream began just about a year ago. The European countries flew another's throats. Today Washington is trying to jolly again and the people are trying to gather enough people together on numerous occasions to make the justification apparent.

### Having the Experience of Paris.

Washington is experiencing, in a somewhat minor degree it is true, just what happened in Paris when the Hun let ravage loose on Belgium and on the northern frontiers of France. Paris is Paris, but it became something very much different from the ordinarily accepted Paris when war loomed black. The Parisian women of high degree turned to, to knit, to sew, to work among the lowly, to scrub floors and even to undertake the hardships of the field army at that time a rather poorly regulated nursing system.

War has leveled social ranks in Washington as it did in Paris. How long they will remain leveled no one knows, but it is probably a goodly and a goodly thing that certain events have happened. The women of this town are broader minded, more kindly in their judgments and kinder working than ever before in their lives. It is difficult for them today to turn away from the work of three years to give themselves over to the play of other years. They probably will find work for their hands to do even when the peace pact finally is signed and the world settles back into something like a semblance of the former properties.

### Given Time for Athletics.

Acting Director of Physical Training Recommends 260 Minutes Be Set Aside Weekly.

Dr. A. K. Aldinger, acting director of physical training of the public schools athletic league of New York, recommends 260 minutes each week for children, 100 of which must be credited in walking to and from school.

### Fordham to Play Rutgers.

Rutgers and Fordham will meet on the gridiron in New York on October 25. The big game on the Fordham schedule is that with Georgetown on election day.

### Long at Has Booster.

Tom Lee, a great Indian runner, will be back to win more distance, according to Sol Mintz, his former manager.

### Brown Has Big Squad.

Brown has a big squad of baseball candidates this season. More than thirty have reported for indoor practice.

### National Tennis.

The national tennis slugs championship will take place at the West Side Tennis club, Forest Hills, L. I., on August 25.

### Tigers Have Gif Hopes.

Princeton is organizing a golf team and hopes to win the intercollegiate tournament in June.

### Yale-Harvard Tennis.

The dual lawn tennis matches between Yale and Harvard will occur on May 31.

## HARDER TEST TO BE IMPOSED ON BILLIARD EXPERTS BY EMPLOYING 18.1 BALKLINE

Star Cueists of Present Day.

Owing to the remarkable averages and numerous high runs that expert billiard players like Champion William Hoppe, Mike Schaefer and Walter Cochran have been making at 18.2 baulkline, a movement is now on foot to introduce 18.1 baulkline as the standard game for championship competition. As a result, it is probable that 18.1 will be the style of play in the tournament which it is planned to hold some time late this year or early next year to decide a championship.

The change from 18.2, which has been the popular game for many years, is being urged by veteran players and promoters of the game as a means of making the game more difficult and stimulating interest. Such veterans of the game as Maurice Daly, who was one of the great players of his time, and others who see the progress that has been made, are behind the plan.

### NEW MANAGER OF SENATORS

Grover Hartley, former Big League Catcher, is to Be Leader of Columbus Team.

Grover Hartley, veteran big league catcher, formerly with the St. Louis Browns and other clubs, is to be the next manager of the Columbus Assn.

### TYRUS COBB IS FOND OF BLOODED CANINES

Tyrus Raymond Cobb, Detroit's outfielder and recently a captain in the chemical warfare division, is a lover of dogs. It was disclosed recently that Cobb is a devoted enthusiast for blooded canines, and enjoys nothing in the way of winter diversion so much as shooting over capable dogs. One dog in particular is Cobb's fond of. This animal answers to the name of Cobb's Hall, and is a son of Higgitt. In a recent show Cobb's Hall was exhibited in an all-day stake and carried off first ribbon. The canine was exhibited by Dr. E. M. Wilder, into whose care it was entrusted during its master's absence in France.

### LITTLE PICKUPS OF SPORT

Donny Knuff drew about enough money to buy a new necktie.

Bill Radden, Giant catcher, who was traded to the Reds, is glad of it.

Pol Perritt says he is through with baseball. He is with his salary paid.

Doc Roller has come out with an expose of the "breeding trust." Doc ought to know.

The College of the City of New York expects to have a winning track team this year.

An effort will be made to amend the Pennsylvania boxing bill so as to permit decision bouts.

Hans Wagner is being honored as a candidate for commissioner of Allegheny county, Pa.

Whatever position Ed Barrow uses Babe Ruth in this season, the slugger's main hold will be "at bat."

Another hour of daylight shouldn't worry some ball players. They get plenty of sleep right on the diamond.

Eddie Burns, of the Phillies, announces he is through with baseball. That will be a blow to Jack Combs.

Jack Quinn will work for the Yankees this year after all. The veteran's work will be watched with a lot of interest.

George McBridge reports that he is in the condition. Plenty of youngsters could follow this veteran's example and benefit greatly.

The Red Sox have given Walter Knott, left-handed pitcher of promise, to the Athletics as final and complete payment for Stuffy McInnis.

Chuck Ward, the Dodgers is one major leaguer who is doubtful about being back from overseas in time to go south with his club.

Street Is Out of Army.

Gully Street, former Washington catcher, has been discharged from the army after long service overseas as a sergeant.

Huston Favors Sunday Law.

Col. T. L. Huston, part owner of the Yankees, is one of the strong advocates for Sunday baseball in New York.

Columbia Has Big Squad.

Fifty candidates have reported for prep practice at Columbia. The New Yorkers will enter a crew in the Oxford cup race this year.

Pete Much Like Gerry.

Pete Herman, bantamweight champion, hires and fires as many managers as the Cincinnati Reds.

Want Penn Crew in Henley.

Penn is considering accepting an invitation to send a crew to the English Henley regatta next July.

Different Light.

Indianapolis—"I see a light!" yelled a member of the Shiloh Baptist church, colored, after the pastor had been preaching for an hour. But it was a different sort of light—the church was afire.

Pupils Marched Out.

Carlinville, Ill.—City Marshal Dick Dunn marched into the high school building by her husband in an adjoining room, nor by two children in another room near by.

The police found marks which indicated that the thief had used a jimmy on the kitchen window. They also found a pair of scissors. Mrs. Hawthorne said she believed she had been chloroformed, as when she awoke she felt sick. The thief also took \$20 which was in a tin box, but evidently he had no use for the hair after clipping it, as it was found alongside the empty money box by Mrs. Hawthorne.

Court Solves Problem.

New York.—How to be happy in jail has been solved by the court. Magistrate Koenig, sentencing Joseph O'Brien for disorderly conduct, said: "Thirty days. In your cell think that you might have had to serve six months, and that will make you happy."

"Same Drunk."

Oklahoma City, Okla.—"Mornin', Judge." "Drunk again. Twice in two weeks." "Not guilty. Same drunk." Fred Stuckey paid \$10.

WHO IS TO BLAME

When President Wilson returned to the Paris conference, there soon developed opposition to the league of nations. The opposition was not to the features of the treaty advocated by the American representatives. This opposition was very noticeable in a substantial portion of the British press.

There is no question but that this opposition is causing serious delay in the peace negotiations. It may result in serious consequences.

Where did this opposition suddenly come from? Why did it appear in the attitude of the English press? One has to read those English editorials to find that it is based directly on the action of the United States senators in the United States senate, who started the whole opposition in England.

As we have said before, there is a very strong element in England and in this country who do not want to see a league of nations established. This opposition in England, some in France and in the United States, particularly in England and here, desires to see an alliance of Great Britain and the United States and possibly France, an alliance of English-speaking nations.

This opposition headed here by those partisan senators is endangering the whole world today. But what do they seem to care, if they can possibly create a political issue of party benefit.

However, they are hearing from the people and are all heeding. They now are restoring to the usual tactics of political tricksters and insisting that they really favor a league of nations. But the blame for the opposition in the conference is right at the door of these partisan politicians.

If they had been fair, had taken up the question as American statesmen, and not started out before President Wilson could reach Washington to put the president in bad and undermine and disrupt the entire American peace plan, the people of America would have been patient and awaited the results of examination.

But when time is of great moment, when the future of a world of nations is waiting determination, Americans are not only disgusted but angered at the injection of mere partisan politics into the peace questions by these United States Senators, to our great shame.

America had risen to a commanding position of the world, when the statesman of the world, when America comes a bunch of political partisans and bring discredit to America and the efforts of real statesmen.

The blame for delay today is due to the great measure to American politics and politicians who have succeeded in stirring up the English and European opposition to the American plan for peace.

A large number of the real republicans, statesmen and leaders, the educators and real students, and the rank and file of the republican party, are objecting strenuously to the small partisan policies of these senators in their efforts to oppose the American plan for peace, and the serious delay this opposition has caused—Merrill Horan.

HARRIAGE LICENSES

Marriage licenses have been issued to Edwin Morrill, city and Oreila Bryntson, known to Mrs. Mayno M. Martin and J. E. Wilcox, both of this city; John R. Haddock and Elsie Marth both of Nekoma; Paul C. Schiller, town of Wood and William Slovver, town of Richfield; Jos. J. Rafferty, Nindon, Neb., and Esther E. Coyte, Marshfield.

CARD OF THANKS

To those who assisted at the death, and burial of my beloved husband, also to those who expressed words of sympathy and the beautiful floral offerings, I give my sincere thanks. Mrs. Anna Dräger

EVERY ITEM NEWS FOR SOMEBODY

Community Events of the Past Week from Various Parts of the County

PLYER ROAD

Mr. and Mrs. Jim DeLampor and family spent Sunday evening at the Peter Morgan home.  
Mrs. Harry Gilman and son, Don, of Anthon spent a few days of last week at the home of her parents, Mr. and Mrs. John Walcott and family.  
Mr. and Mrs. Fred Theado entertained company from Wausau on Sunday.  
Mr. and Mrs. Rudolph Reiman and children and Miss Ida Kroil from Port Edwards spent Sunday afternoon at the John Walcott home.  
Mr. and Mrs. Wm. Moll received word from their son, Leonard, saying he arrived safely in New York from overseas and is in a hospital there doctoring a sore knee, but expects to be with his folks soon.  
Mr. and Mrs. Norman Young spent a few days of last week with relatives at Almond.

CITY POINT

Grace and Carl Station of Clay visited their brother, J. Station and family over Sunday.  
Mrs. Morris of Marshfield, visited Francis Anderson over Sunday.  
Francis Anderson gave a party for the young folks Saturday, March 29th.  
Elmer Bills has received his discharge papers from the Great Lakes Naval Training station.  
A welcome party was given Peter Nelson at the home of his parents, Mr. and Mrs. Nelson, Saturday evening. About 50 people were present and a very enjoyable evening was spent and lunch was served at midnight.  
P. M. Nelson and son, Ruben, transacted business at Grand Rapids Friday.  
Mrs. A. Perath and twin daughters, Lilian and Vivian of Alma Center spent Friday and Saturday with brother and family.  
Born to Mr. and Mrs. P. Moniek a baby boy March 15.  
Mrs. L. Amundson and children of Grand Rapids spent the past week with her mother, Mrs. E. Sullivan.  
Herbert Jensen and Chet Jensen left for Grand Rapids Monday.  
A social will be held at the home of Mr. and Mrs. Persinton Friday evening, April 11th, everybody invited.  
P. Nelson visited his sister and family, Mrs. Geo. Schroeder a few days last week.

SARATOGA

Emmett Knutson returned home Wednesday from Camp Hancock, Ga.  
C. W. Lundberg and C. Johnson were at Plover Saturday.  
Mr. and Mrs. George Peterson went at Cranmer last Friday afternoon.  
Miss Emma Malmgren visited over Sunday with home folks.  
Mrs. A. Sutherland arrived home from Chicago Tuesday.  
Earl, the eight year old son of Mr. and Mrs. K. Kantanen who broke his leg six weeks ago was able to be taken home from the hospital last Monday.  
Mr. Westenberg and C. Nelson came up from Chicago to attend the funeral of the former's brother, John Westenberg.  
John Westenberg and son, John, of the town of Grand Rapids were visitors at the Neil Jensen home last Sunday.  
C. Draeger, an old resident of this place died at Grand Rapids last Friday.  
A large number of people from here went to Grand Rapids Sunday to attend the funeral of their old neighbor, C. Draeger.

PLEASANT HILL

Kenneth Buchanan who has been serving his country in France returned home last week and is visiting relatives and friends in our borg.  
Mrs. W. W. Stroppe and daughter, Mary, returned home last Friday from their visit at Waverly, N. Y.  
Mrs. Bradford is visiting at the Otto Holmberg home.  
Chas. Duetke and his goods arrived here last week and have moved on Ida Robinson's farm which he recently rented.  
The Misses Lillie and Thelma Brown and Joanne and Mr. Moore visited one day last week at the Otto Holmberg home.  
Rev. Vaughan visited in our burg one day last week.  
Some of our young folks gathered at the Popko home Sunday night. A very pleasant evening was spent.  
Thelma Heamschid spent a few days at Grand Rapids last week.  
Mr. and Mrs. Otto Erdman spent Sunday with her parents near Vee-dum.  
Miss Mary Horn spent a few days last week with Mrs. P. H. Likes at Pittsville.  
While the modern small boy is no undo, we are still hunting for the old fashioned specimen who is working pair of pants made out of Dad's old ones.

REMINGTON

Mr. and Mrs. George Rodie of Rochester, Minn., visited at the home of Mr. and Mrs. R. H. Haas several days last week.  
J. P. Lowe and J. W. Cary auted to Grand Rapids on Friday, April 4. Frank Rodie and wife and Mrs. E. Rodie of Nekoma were guests at the Haas home Thursday and Friday of last week.  
Miss Miriam Nugent of Rochester is the guest of her cousin, Miss Ethel Hand this week.  
Mr. and Mrs. Chas. Sanger and Mr. and Mrs. Albert Urbahn were the guests of Mr. and Mrs. Sack on Sunday.  
C. S. Lowe and J. W. Cary made a business trip to Grand Rapids on Monday.  
Miss Helen Wippl spent Saturday and Sunday at the home of her parents at Nekoma.  
The Home Talent play called "The Old Play" was in the town hall at Babcock. It was a decided success all the way through.  
Mrs. A. E. Kohnan of Dexterville visited at the home of Mr. and Mrs. J. Q. Daniels of Italy several days last week.

MEEHAN

Farmling has commenced in this vicinity, some are plowing and some wheat and oats have been planted.  
There has been an unusual amount of sickness around here the last week with influenza and la grippe.  
School commenced Monday after being closed a week owing to the epidemic.  
Game Warden Kelsey of Stevens Point gave some fishermen quite a surprise one night last week by making an unexpected call. The result was that Jos. Plattoff and son, Frank were caught with a net and a supply of fish. They settled the affair by paying a fine at Stevens Point.  
Orin Pike spent a few days last week in Adams County at the home of his father and other relatives.  
S. Fox was called to Stevens Point Saturday by the Veterinary board committee. He has been appointed chairman of the town of Plover.  
Mr. and Mrs. Wm. Cusman spent a few days at Stevens Point last week at the home of their daughter, Mrs. Frank Mathewson. The family was pretty sick with influenza.  
The Plover Creamery Company are still running their delivery truck through here, buying cream and selling butter. They are giving good satisfaction and seem to be holding most of their old customers.  
Farmers are taking much interest in dairying lately and most every farmer has cream or milk to send to the factory.  
Chas. Shilling promises to be an interesting business along the river this season. There are a good many local residents going at the work and several camps are already established along the river banks now.  
Quite a number came up from Illinois last week with tents and camp outfits and expect to be in the sawn up around this vicinity.  
D. H. Parks and family and Chas. Galloway and family took advantage of the beautiful weather Sunday by taking an auto ride to Stevens Point and spending the day at the home of John Matheson.  
Town Order Books for sale at the Tribune office.

ALTDORF

The following are the town officers for the town of Seneca for the ensuing year: C. J. Lou, chairman; W. Jackson and Peter Peterson, supervisors; Math Staines, Clerk; D. M. Smith, treasurer; P. Condo, assessor; Board of Health, Wm. Jackson, president; Peter Peterson, secretary; O. J. Lou, health officer; road superintendents, Dist. No. 1 Hugo Hessler; Dist. No. 2 Wm. Jackson; Dist. No. 3 John Arnold; Wood commissioners, Anton Arnold and W. H. George.  
Josephine Sehn has returned home for the summer.  
O. J. Lou recently closed a deal with J. Hunter whereby Mr. Lou bought the 40 acres just west of his place on the Henlock and Berkley Payer bought 80 acres in Sec. 5-22-4.

Some time ago Anton Arnold shipped out a car of marsh hay for which he received \$14 a ton. According to that what is good clear marsh land worth that will yield about two tons to the acre?  
At the town meeting last week \$500 was raised as the town's share to apply on the state road for next year and over \$1500 were made available for this year's work, so we live in hopes that some day we may be able to get out at any time of the year.  
Husor Bros. have been dealing in stock considerable lately.

EAST NEW ROME

The Shadow Social at the church Friday night was a success \$22.40 being realized.  
Several from this way attended the church services at the Bell school house Sunday.  
Mr. and Mrs. Ervin Holtz were visitors at the Ed. Holtz home Saturday evening.  
Ladies aid met with Mrs. Israel Jero last week Thursday. The next meeting will be with Mrs. J. R. Potts on the 1st Thursday in May.  
Miss Lela Irwin was an over Sunday visitor at the Gladys home at Nekoma.  
Mr. and Mrs. J. R. Potts entertained friends from Grand Rapids Sunday.  
Mr. and Mrs. Clyde Wolcott and family spent Sunday at the J. Wolcott home.  
Ed. Holtz had his house repapered last week. Hans Kroustfeldt of Grand Rapids did the work.  
Mr. and Mrs. Joe Busch spent Sunday at the J. R. Potts home.

NEW ROME

Mrs. Edna Wilson and Maude Pike who are working at Crown's hotel at Nekoma spent Sunday with their parents, Mr. and Mrs. Charley Pike.  
Mrs. E. J. Hoelt and family and Carl Amundson spent Sunday evening at the Victor Blasseyk home.  
Misses Agnes Roush and Mary White and Messrs. Earl Tuttle and George Amundson spent Sunday afternoon at the John Davis home.  
Mr. and Mrs. Charley Amundson spent Sunday at the John Amundson home.  
Miss Lydia Hoelt returned home Saturday after a weeks visit at Grand Rapids.  
—May 16, Holsteins Central Wisconsin Live Stock Breeders' Association sale at Marshfield, Wis. W. W. Clark, Grand Rapids, Wis. Sales Manager.

RUDOLPH

The E. P. U. lodge met Saturday evening and Mrs. Tim Ebacher of Linwood, Seth Whitman of Sigel and Miss Ed. Bentley were initiated into the order. The next meeting will be held the first Saturday night in May at which time ice cream and cake will be served to the members and each member invites a friend.  
Mrs. Louise Burns left last Wednesday noon for her home in Gary, Ind., after a weeks visit with her sister, Mrs. K. J. Marceau.  
Chas. Marceau came up Tuesday evening and visited until Wednesday noon with his daughter, Mrs. Floy Clark. Mr. Marceau came up to celebrate his birthday.  
Mr. and Mrs. Theo. DeBly are rejoicing over the arrival of a baby boy born Sunday, April 6th.  
Alk. and Mrs. Louie Timmerman and children of Grand Rapids spent several days visiting relatives here. They returned home last Wednesday noon.  
Mrs. Chas. Imig and Mrs. Will Piltz spent Sunday in Mosinee with Dr. Jackson and family and report they all fine.  
W. J. Clark has bought the Nick Marceau building owned by Chas. Brere and will remodel it for a garage and the upstairs will be used by the E. P. U. lodge to hold their next meeting.  
Bat Marceau departed Wednesday noon for an extended visit in Michigan.

TEN MILE CREEK

A nice crowd attended church here Sunday and we like to see that all the time. There will be church again the first Sunday in May.  
Several from this burg were at the Shadow social given at the Methodist church and report having a good time. Twenty-two dollars and some odd cents were taken up to paint and repair the church.  
Mary Evans spent all last week with Mrs. Winagarden.  
Quite a number from here attended of the party Albert Sengel's in New Rome Saturday evening and all report a very good time.  
Walter Mathews spent Sunday at home.  
Mrs. Nels Engdahl and children, also Miss Ruth, Mrs. Winagarden and son, Mrs. Evans, Victor Lipsitz and Harriet Mathews visited at the Lindahl home Thursday evening of last week.  
Victor Lipsitz hauled a load of lumber to Grand Rapids to have dressed, also a big load of sod bams this week.  
Mrs. J. Matthews returned to his work in Nekoma last Tuesday.  
Mrs. Winagarden and Mary Evans called at the Sholsky home one day last week.  
Mrs. Lindahl and Harriet Mathews visited at the Lipsitz home Sunday evening.  
Quite a number from here were in Grand Rapids Thursday of last week. Albert and Ted Sengel and Frank Matthews called at the Krohn home Sunday.  
Mr. Lakin arrived here last week from Washington to stay with his daughter, Mrs. John Tesser. For the last few days he has been visiting in Plainfield with relatives and friends but expects to be back this week to help John Tesser build his new home.

ALONG THE SENECA ROAD

J. R. Marriam took a trip to Appleton on Thursday to help the Nelson family in moving their household goods. He reports the roads in bad condition.  
P. Condo was at Pittsville on Thursday in the interests of the Federal Loan Association.  
P. H. Bestman made a trip in Minneapolis the first of last week.  
The S. S. C. held its regular meeting April 3, with Mrs. F. W. Jones. The attendance was small but an enjoyable afternoon was spent. Mrs. J. R. Marriam read some interesting articles on race making and several specimens of hand made lace were on display. A letter from Mrs. Jas. Pink was read and a package of post cards sent by her (of western views) was distributed to the members. The next meeting will be held with Mrs. G. Teske April 17th. This will be a birthday meeting in honor of the members whose birthdays occur in April. Mrs. Condo and Mrs. Staines have charge of the program. The town officers met at the clerk's office on Monday and the new officers took the oath of office and transacted other town business. Incoming officers are: D. M. Smith, treasurer, P. Peterson, supervisor, P. Condo, assessor; Math Staines, Clerk.  
Owners, Clark & Jackson, 10 W. Ellsworth, W. H. Krause, Clerk.  
Tobacco—under \$10 cash, over \$10 bankable paper at 7 per cent. Liberty bonds taken at face value, where amount of purchase equals the face of a bond.

WARREN BUYERS TO KNOW

PLACE BEFORE PURCHASING  
Editor, Grand Rapids Tribune—  
Now farmers are constantly changing hands in our center state. The price paid to agents in most cases means borrowing part of the money for the farm and the land will not pay the interest and afford a living for some years. Many a man is obliged to sell at a loss and the agents adds the improvements made on the place to the price for the next buyer. A man desiring to take up farming or to change to a farm in a different location should first decide where he wants to go and then gather all information possible from state immigration bureaus and other sources. If this is satisfactory he should visit his chosen locality and board at a farmer's home and visit other farmers to learn conditions, prices and of farms for sale.  
A. J. Lontonsky,  
R. D. 6 box 40, Grand Rapids.

UNDER STATE SUPERVISION

When looking for an absolutely safe and sound short-time investment, consider our Certificates of Deposit.  
All the assets of this bank are behind them, and these assets are subject to the most rigorous examination by government officials at regular periods.  
Besides their unquestioned safety they pay a liberal rate of interest and the money invested can be obtained at any time on demand.  
There is hardly any other form of investment offering all these advantages.

## STATE OF WISCONSIN, County of Wood—SS.

We, Sam Church, County Clerk, and W. H. Carey, a Democrat and A. B. Bever, a Republican, of said county, constituting the Board of County Canvassers of said County, do hereby certify that the foregoing tabular statement is correct and true as compiled from the original returns made to the County Clerk of said County and as compared therewith by us, and that from said returns it appears that at the Judicial Election held in the several towns, wards, villages, and election districts of said county, on the first Tuesday of April, 1919, being the first day of said month, the number of votes given in said county for Judicial and School officers, was as follows:

The whole number of votes for Justice of Supreme Court was twenty eight hundred forty two (2842) of which number Marvin B. Rosenberry received eighteen hundred fifty seven (1857) votes; scattering ten (10) votes. The whole number of votes given for County Judge was twenty six hundred (2600) of which number William J. Conway received twenty five hundred sixty one (2561) votes; scattering thirty nine (39) votes.

The whole number of votes given for County Superintendent of schools was two thousand and eighty two (2082) of which number Robert Morris received nineteen hundred sixty five (1965) votes; scattering fifty three (53) votes.

We do, therefore, hereby further determine and certify that the following named persons, having received the greatest number of votes for the respective offices for which such was a candidate, are hereby declared elected to said offices, as follows, to-wit:

For County Judge William J. Conway; for County Superintendent, Robert Morris; for Justice of Supreme Court, Marvin B. Rosenberry.

Witness our hands at the office of the County Board of Supervisors at Grand Rapids, in said county this 4th day of April, in the year of our Lord, one thousand nine hundred and nineteen.

## INTERESTING NEWS FROM SOLDIER BOYS

FROM HARRY HAGERSTROM

New Chateau, France, March 6, 1919

Dear Sir:—

I have been receiving the Grand Rapids Tribune right along and have seen a number of letters written by boys from home. Now let me write one.

First of all it's a fine country to be locked up in as it rains every day and night and mud is your knees. Can't even get lumber enough to put floors in the barracks to try and prevent sickness and the hospital. But there is always choice lumber for the dance halls where the enlisted men are allowed, as for me I don't dance.

Yesterday coming down from Verdun on a train of eighty wagons we were 22 hours on the road. We were for 2 A. M. and of course wanted a bite to eat before leaving, so we went to the usual mess hall "greasy spoon" and were given a mess of rice and milk, no sugar, no butter and coffee, it was all gone. Some breakfast I'll say. Well I did as I felt, didn't eat and went away disgusted. But went down and loaded our car (car in U. S. A.) and started for our camp. About 1 P. M. we arrived at our usual eating house near St. Mihiel and what did we get there but rice and beans. Arrive in camp about midnight and the same story.

Not over a month ago the dear American Red Cross wanted to put up a canteen in Verdun, so picked out a small piece of ground where it would be handy for all and the next afternoon a detail of negroes came down to cut down a few trees to make room for the big building. After the ground had been leveled and eleven trees cut down along came a French Colonel and the actions he went through had Charles Chaplin and ordered the men away. Called a French Military Police to guard the place long enough to get a company of men to build a grand barby for the boys. After the work which they did and had Uncle Sam pay 55 francs for each tree cut down and near there we have a Y. M. C. A. run by four American boys, but it's impossible to get near the window for the French soldiers are there all the time.

In an old shot down village over here we have soldiers billeted in. They sweep the streets and clean up the cigarette butts and the French soldiers come along and watch them and usually laugh at you and shake their heads. I got a discharge in their hand. Coming down a bit further we stopped and talked to a soldier who was doing his "Pell T. Road" to look after. Building up France is all I can see. When they want it built up they have war.

Saw a notice in a paper from Idaho saying the boys in France wanted to they could get their release and discharge at once. Wonder what part of France that applies to, I sure don't hear of it. Who are doing the job as a freeman on these engines sure fight an engine every minute of the trip, usually have to clean the fire (three) in a trip and the boys get a dollar and its done for a dollar and a dime a day and usually long days at that. We have German prisoners in this camp and they have got to work about seven hours a day. From ten fifteen to ten thirty is a rest period, and are called at eleven thirty to go to dinner. In the afternoon they are to run some hours and are called in at 4 P. M. Some easy hours, I should say and from all reports they are not in any hurry to go home.

Three days ago I was in a ship and got out of the water and good prices for a dollar and a dime a day and usually long days at that. We have German prisoners in this camp and they have got to work about seven hours a day. From ten fifteen to ten thirty is a rest period, and are called at eleven thirty to go to dinner. ## TO FORM SOIL CLUB WEDNESDAY VERNING

The farmers up in the section of the Crooked Rift marsh, north of Biron are going to hold a meeting at the Court House next Wednesday evening, April 16, for the purpose of organizing a soil club.

Mr. L. L. Ferguson, one of the committeemen appointed at a meeting held about two months ago, has brought us in the following article on this meeting:

"If you are interested in improving your farms and increasing the fertility of your soil, then be at Grand Rapids at the Wood Court, Court House in the court room at 8 o'clock P. M. on Wednesday, April 16th, 1919.

We have arranged for one of Wisconsin's most efficient soil specialists H. W. Unger, to give a talk on soil improvement and how the farmer may get assistance from the state and it is the duty of every farmer and every man who is interested in better farm conditions in Wood and adjoining counties to be present at this meeting.

The state of Wisconsin has spent thousands of dollars in experimenting on all the different kinds of soils and has made some of the most important discoveries in soil development, but it is money thrown away if the farmers do not take advantage of the things that have found to be true, as a result of this.

It is the desire that enough interest will be taken in this movement to justify permanent arrangements by which we can get advice and help from these men who are devoting their entire time to this study.

If you have an auto then see that your neighbor has a good one. This year where you have had losses before. Remember the time when the place and be there with a smile on your face.

L. L. Ferguson, Committee Chairman.

The benefits which the farmers in this section are getting from a soil club are numerous and it would be a fine thing if every farmer in the district came in next Wednesday night and attended the meeting.

The cost of getting this service is practically nothing as the state bears the burden of the expense. The farmers up here who have had their soil tested have found that it was of a high acidity, and they have corrected this trouble. Probably all the soil might not be bothered with acidity but there are other things that you can get the state experts are always ready to give any help they can to improve your soil conditions.

Mr. Unger is a soil expert who has a good deal of experience with different varieties of soils throughout the state, and unless you are making all the money you want and your crops are as good as you desire them to be it would be a good idea to hear what the gentleman has to say.

GRANTED TWO DIVORCES

Frances Lesewzka was granted a divorce from Frank Lesewzka when they appeared before Judge Park at Stevens Point the latter part of last week. The couple had been married for three years and had one child. The plaintiff charged cruel and inhuman treatment. Julius Paulson was granted a divorce from the latter part of last week, the plaintiff claiming that the defendant was cruel and inhuman and that she had committed assault and battery upon her person at different times during their married career.

A woman is always buying a dollar bottle of some new medicine, so why can't she take a few boxes of it and let it stand around the house.

The reason why a married man likes to spend his time with the boys before he gets home is because it would be awful if he happened to spend any of it on his wife.

A soldier boy with the army of occupation in Germany, writing home says: "Did you ever hear of the gapjacks we are getting now? Some class to us. We have a kitchen 928 feet wide and 1,345 feet long. It takes eighteen firemen to keep it hot. We have 6019 cooks and 700 K. P's. We mash potatoes with a pile driver and grind coffee with a 305-horse power Liberty motor. We haul our dirty pans on flat-cars and the K. P's have to use roller skates. The mess sergeant rides up and down the kitchen on a motorcycle shouting orders through a megaphone. Making flapjacks, we mix batter with twelve concrete mixers, keep a steam shovel moving eggshells away from the door and six K. P's with bacon rinds strapped on their feet skate into the griddle to keep it greased. Believe me or not, that's the honest truth."

## SPECIAL Lots of Boys black lace Shoes, also tan Outing bails.

Sizes 24 to 34.

It will pay you to come in and look these over. A chance to buy good shoes cheap, only \$2.45. Same shoe as above in smaller sizes from 9 to 2, only

\$1.95 AT GLEUE'S

BOSSERT TAKES CONTRACT

The County Highway and Bridge Committee awarded the contract for the concrete work on the South Side Road to Fred Bossert. The latter part of the week, the agreement that work would start not later than June 1st, although it is the contractor's intention to start as the Wood Hill on B street at Nekosia soon as possible. Another contract, was awarded Mr. Bossert, work to start this week.

## NOTICE OF FINAL DETERMINATION

Notice is hereby given that the Common Council of the City of Grand Rapids, at a meeting held April 2, 1919 made a final determination as to the benefits to be assessed to the real estate for the paving of that part of 8th street commencing where Baker Street intersects said Eighth Street and running thence Southerly on Eighth street to where Oak street crosses said Eighth street.

That the following is a complete list of said assessments as finally determined, to-wit:

Owner's Name	Addition	Block	Lot	Ft. Front	Rate Per Ft.	Tot. Amt. of Tax

STATE OF WISCONSIN, County of Wood.—Ss.  
We, Sam Church, County Clerk, and W. H. Carey, a Democrat and A. B. Bever, a Republican, of said county, constituting the Board of County Canvassers of said county, do hereby certify that the foregoing and within tabular statement is correct and true as compiled from the original returns made to the County Clerk of said county and as compared therewith by us, and that from said returns it appears that at the Judicial Election held in the several towns, wards, villages, and election districts of said county, on the first Tuesday of April, 1919, being the first day of said month, the number of votes given in said county for Judicial and School officers, was as follows:

The whole number of votes for Justice of Supreme Court was twenty eight hundred forty two (2842) of which number Marvin B. Rosenberry received eighteen hundred fifty seven (1857) votes; Julius T. Dittmar received nine hundred seventy five (975) votes; scattering ten (10) votes.

The whole number of votes given for County Judge was twenty six hundred (2600) of which number William J. Conway received twenty five hundred sixty one (2561) votes; scattering thirty nine (39) votes.

The whole number of votes given for County Superintendent of schools, was two thousand and eighteen (2018) of which number Robert Morris received nineteen hundred fifty six (1956) votes; scattering fifty three (53) votes.

We do, therefore, hereby further determine and certify that the following named persons, having received the greatest number of votes for the respective office for which each was a candidate, are hereby declared elected to said offices, as follows, to-wit:

For County Judge William J. Conway; for County Superintendent, Robert Morris; for Justice of Supreme Court, Marvin B. Rosenberry.

Witness our hands at the office of the County Board of Supervisors at Grand Rapids, in said county this 4th day of April, in the year of our Lord, one thousand nine hundred and nineteen.

SAM CHURCH, County Clerk.  
W. H. CAREY, A. B. BEVER,  
Board of County Canvassers.

STATE OF WISCONSIN, County of Wood.—Ss.  
I, Sam Church, County Clerk of said county, do hereby certify that the foregoing has been compared by me with the original certified statement of the Board of County Canvassers on file in my office, and that the same is a true copy thereof, and of the whole of such original, except as to scattering votes.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seal of the County Board of Supervisors of said county at Grand Rapids, this 4th day of April, A. D. 1919.

SAM CHURCH, County Clerk.

INTERESTING NEWS  
FROM SOLDIER BOYS

FROM HARRY HAGERSTROM

Now Chateaux, France,  
March 6, 1919

Mr. A. B. Sutor.  
Dear Sir:

I have been receiving the Grand Rapids Tribune right along and have seen a number of letters written by boys from home. Now let me write one.

First of all its a fine country to be looked up in as it rains every day and night and mud to your knees. Can't even get lumber enough to put floors in the barracks to try and prevent sickness and the hospital. But there is always choice food for the dancin' ladies where an enlisted man isn't allowed, as for me I don't dance.

Yesterday coming down from Verdun on a train of eighty wagons we were 22 hours on the way. We called for a A. M. and of course wanted a bit to eat before leaving, so we went to the usual mess hall "greasy spoon" and were given a mess kit full of rice, no milk, no sugar, no bread and coffee. It was all gone. Some breakfast I'll say. Well, done as I felt, didn't it and went away disgusted. But went down and loaded on a wagon (car in U. S. A.) and started for our camp. About 1 P. M. we arrived at our usual camp house near St. Mihiel and what did we get there but rice again. Arrived in camp about midnight and the same story.

Not over a month ago the dear American Red Cross wanted to put up a canteen in Verdun, so picked out a small piece of ground where it would be handy for all and the next afternoon a detail of negroes came down a down a few feet to make room for a fair sized building.

After the ground had been leveled and eleven trees cut down along came a French Colonel and the auctioneer he went through had Charlie Chaplin fooled, and ordered the men away. Called a French Major. Police to guard the place long enough to get a company of men to build a 3 strand barbed wire fence around the lot which they did and they called it French Major's lot. Each one cut down and now there we have a Y. M. C. A. run by four Y. M. C. A. women who serve chocolate free all day long but its impossible to get near the window for the French soldiers are there all the time.

In an old shot down village over here we have soldiers billeted in it. They sweep the streets and clean up the cigarette butts and the French soldiers come along and sweep them and usually laugh at you and shake their I. O. U. discharge in their hand. Coming down a bit further we stopped and talked to a soldier who was doing his "P.O. Box" and I was told to get a letter to my folks after. Building up France is all I can see. When they want it built up they have war.

Saw a notice in a paper from Idaho, saying if the boys in France would like to get home they could get a house and discharge at once. Wonder what part of France that applies to, I sure don't here.

The boys in our outfit who are doing the job as a fireman on these engines are light and engine over a mile of the trip usually have to clean the fire three times in a trip, owing to the poor coal and its done for a dollar and a dime a day and usually long days at that. We have German prisoners in this camp and they have good cigars and good food and get out to work about seven thirty. From ten fifteen to ten thirty is a rest period, and are called at eleven thirty to go to dinner. In the afternoon they work at the same house and get out to work at two P. M. Some easy hours, I should say and from all reports they are not in any hurry to go home. No Sunday work at that. A few days ago three of the boys in this camp came to our house and were out at the round house and they had two chairs of their pay taken for two months and three hours of extra duty put onto them. Extra duty after supper at the round house. In our house a detail of four men in ago volunteered to come over to run the engines in my company. We have two "grandpas" and from letters from their folks, they are needed home on account of sickness. So effort has been made to get them home.

At times you feel like going down town and get a good feed of eggs and French fried potatoes. Well as soon as a Yank steps in the door prices go up double. Eggs sold for ten francs a dozen and a few dollars and you can get an egg for six eggs for they are very small.

Guess when the war broke out the chickens were stunted and stopped growing for they look like "banties" and you can easily get those small for the stomach sure will allow it but it will fill a man's pocket book. So its no more feeds until pay day. I sure would like to trade Stovoy Norton's estate for all France and other places I have been to. I have a detail of four men in ago volunteered to come over to run the engines in my company. We have two "grandpas" and from letters from their folks, they are needed home on account of sickness. So effort has been made to get them home.

There are places in France where a Yank would starve to death. But you always find "Yanks" there. Some boys or any person may write good of this place but I'll never have the heart to say any good of it. Your drinking water must be treated before drinking it for these live in "Toadland" live on wine. Drink the water raw and some times you see a hospital and maybe later have some one put you in the ground with a spade, only you wont know it.

And there are other things too, serious to talk about. America, always wanted the truth, wait until some of the boys get home. I got a piece of poultry to send you later and it is a good one for the place we are in now. Some of you may think I am a natural born kicker. But not me, its all facts and can be proven at any time. Heres hoping I get across the ocean soon and I'll sure clean my feet so as to not bring any mud to America.

As ever,  
H. S. Hagerstrom.

## The following letter is from Frank Brostowitz, son of Mr. and Mrs. Frank Brostowitz of the town of Sigol. Frank has seen considerable action and writes a nice letter.

Hagerst, Germany,  
Feb. 18, 1919

My Dearest Parents:  
I will now describe my trip in this country. I suppose from the other letters I have written home you can gather an idea what the country is like as we were landed here everything seemed different. We were then taken to a camp not far from the lines. Here we stayed a month or so doing our work as always.

Planes flying above our heads like birds, shells bursting like thunder and by now we are used to it all, so I didn't care much when I saw the results of the war every day thrown in my face. Nothing but old men and old women and children and cripples of all kinds. You couldn't see any more of the fighting men. They were all dead. They would always be dressed in black and after four years of war every family in France had lost some member. Well, we began to learn some French and they began to learn some of the French people, in fact everything was sliding along fine. Finally after this we crossed France and landed at the foot of the Alps mountains, there we trained for two months under the supervision of French instructors. After they got us all blood thirsty and hard boiled we went to what they called a quiet front. On these fronts both sides are dug in. Not I mean we had trenches. Not many were killed in a day here and it was a good place to break in green men. It is here where we saw dead men, (lunars) for the first time, heard the bullets whizz, heard the big shells burst, saw gas and got more or less used to war.

After two months in Alsace-Lorraine we were all used to the game and we had killed the Hun, killed him, and he had killed some of us, then we moved. From there we started to make history for ourselves. I am sending a clipping from a French newspaper in this letter about the 32nd division. They attacked again and again but in vain were their men shot and they thought they were only a handful of men and they would kill us off before we did any damage. We proved to be the most fearless soldiers in the world. It was at this first big battle where our men were killed. I stopped the German drive on Paris. Then the word spread over the German army of ten million of men that the Americans were floundering, blood thirsty devils and all such talk as that we had them scared. They turned their machine guns on us and kept up a continuous rain of bullets until they were captured and they cried for mercy. Do you think we gave it to them? No, we said "We take your word," and they wouldn't would had its way through his body.

We were relieved by another division and came back out of the lines with about fifty or sixty men in a company, all the rest were killed or wounded. Our marks were all up again with men from other companies and we were sent back again after a ten days rest, this time we went in for good. I said my prayers and made up my mind to die fighting. I was not scared to die but my life as dear as possible. I got real less and took a lot of chances, went through hell and saw some of my best pals killed. On the fourth day of that fight I was half blind, choked with smoke and knew I couldn't last only a couple of days, but I didn't last any longer and we were out, so we needed a good rest. After this we were in once or twice but none were as bad as the drive on Paris. I am also sending you a map showing where the fighting was. We passed, the arrow points show where we also went on our shoulder as they represent that we broke through every line what the Germans put up against and made our way through the lines. Sometimes we did it. I had some pretty close calls but its all over now we sit and crack jokes about it. I am getting rather sleepy so will have to close. We are now waiting for the next move. We are so we can be sailing home. Hope to see you all in as good health as when I left.

Your son,  
Frank J. Brostowitz,  
Co. B, 120 M. G. B. M.  
P. S. I was two miles away from Quinon Roosevelt's grave but I couldn't get there to see it and Sunday General Pershing will be here so will pass in a Review front and we are busy cleaning our equipment so that we will look like a slick bunch of soldiers. Well its a wonder I am alive and can in perfect health so its a I care for now is to get home once more.

The clipping mentioned in this article is as follows:  
"The Thirty-second division planted the first American flag on German soil, and on March 10, Wisconsin and Michigan men, came under shell fire and from that date to Nov. 11, the division outtraged Boche guns. Only ten days after its turn in the trenches the Thirty-second chased the Boche from the Gurgen to the Vosges. Then it went to a sector north of Soissons and stormed Juvigny Plateau, fighting side by side with the heroic "pollus" of Gen. Mangin. After that victory with the French it was the best for ten days before going into the final drive. The American army's scrap north of Verdun was but three days' old when the Thirty-second went in, and for the first three weeks the Wisconsin and Michigan boys battled the Boche for the division's honor. During the war the division has fought on five fronts—Alsace, the Vosges, Soissons, Argonne and the Meuse—and has fought twenty of German's best divisions, among them the Prussian Guards. It has never yielded a yard of ground to the enemy's counter-attacks."

REOPEN AUTO TRIM SHOP

The Grand Rapids Auto Trim Shop has been re-opened with a new supply of materials and they are now able to do all kinds of top and cushion work, such as reupholstering tops, making new side curtains and repairing the old ones. Seats rebuilt better than new. Seat covers made to order. Call and look at samples and prices. R. R. Sweet, Prop. 149-33 Second St. N. Grand Rapids, Wis.

BOSSERT TAKES CONTRACT

The County Highway and Bridge Committee awarded the contract for the concrete work on the South Side Road to Fred Bossert, the latter part of the week, the agreement being that work would start not later than June 1st, altho it is the contractor's intention to start in the wood hill on B street at Nekoosa soon as possible. Another contract, was awarded Mr. Bossert, work to start there this week.

TO FORM SOIL CLUB  
WEDNESDAY EVENING

The farmers up in the section of the Crooked Rift, north of Byron are going to hold a meeting at the Court House next Wednesday evening, April 16, for the purpose of organizing a soil club. Mr. L. L. Ferguson, one of the committeemen appointed at a meeting held about two months ago, has brought up in the following article on this meeting:

"If you are interested in improving your farms and increasing the fertility of your soil, then be at Grand Rapids at the Wood County Court House in the court room at 8 o'clock P. M. on Wednesday, April 16th, 1919.

We have arranged for one of Wisconsin's most efficient soil specialists, Mr. W. H. Ferguson, to give a talk on soil improvement and how the farmer may get assistance from the state and it is the duty of every farmer and every man who is interested in better farm conditions in Wood and adjoining counties to be present at this meeting.

The state of Wisconsin has spent thousands of dollars in experimenting on all the different kinds of soils and has made many wonderful discoveries as to the possibilities of soil development, but it is money thrown away if the farmers do not take advantage of the things they have found to be true, as a result of this work.

It is the desire that enough interest will be taken in this movement to justify permanent arrangements by which we can get more and better assistance from these men who are devoting their entire time to this work.

If you have an auto then see that your neighbor has a way to go. It will mean that you may have profits this year where you have had losses before. Remember the time to remember the place and be there with a smile on your face.

L. L. Ferguson,  
Committeeman.

The benefits which the farmers in this section can get out of a soil club are numerous and it would be a fine thing if every farmer in the district came in next Wednesday night and attended the meeting. The cost of making the service is practically nothing as the state bears the burden of the expense. The farmers up here who have had their soil tested have found that it was of a high acidity, and that their crops were suffering. Probably all the soil might not be bothered with acid but there are other things that go to hinder the growth of the crops and the state experts are always ready to give any help they can to improve the soil conditions. Mr. Ferguson is a soil expert who has had a good deal of experience with different varieties of soils throughout the state, and unless you are making all the money you want and your crops are as good as dead, there is no reason why you should not be in and hear what the gentlemen have to say.

GRANTED TWO DIVORCES

Frances Lesewzka was granted a divorce from Frank Lesewzka when they appeared before Judge Park at Stevens Point the latter part of the week, the case having been taken over there by this city for the plaintiff charged cruel and inhuman treatment. Julius Paulson was granted a divorce from Mary Paulson at the Point the latter part of the week, the plaintiff claiming that the defendant was cruel and inhuman and that she had committed assault and battery upon his person at different times during their married career.

A woman is always buying a dollar bottle of some new medicine she she close to us. We have a kitchen 928 feet wide and 1,345 feet long. It takes eighteen farmers to keep it hot. We have 5019 cooks and 706 K. P's. We mash potatoes with a pile driver and grind coffee with a 305-horse power Liberty motor. We run our dirty pans on flat-cars and the K. P's have to use roller skates. The mess sergeant rides up and down the kitchen on a motorcycle shouting orders through a megaphone. Making flapjacks, we mix batter with twenty concrete mixers, keep a steam shovel moving eggshells away from the door and six K. P's with bacon rinds strapped on their feet skate over the griddle to keep it greased. Believe me or not, that's the honest truth."

The reason why a married man likes to spend his coin with the boys before he gets home is because it would be awful to happen to spend any of it on his wife.

A soldier boy with the army of occupation in Germany, writing home says: "Did you ever hear of the flapjacks we are getting now? Some close to us. We have a kitchen 928 feet wide and 1,345 feet long. It takes eighteen farmers to keep it hot. We have 5019 cooks and 706 K. P's. We mash potatoes with a pile driver and grind coffee with a 305-horse power Liberty motor. We run our dirty pans on flat-cars and the K. P's have to use roller skates. The mess sergeant rides up and down the kitchen on a motorcycle shouting orders through a megaphone. Making flapjacks, we mix batter with twenty concrete mixers, keep a steam shovel moving eggshells away from the door and six K. P's with bacon rinds strapped on their feet skate over the griddle to keep it greased. Believe me or not, that's the honest truth."

Here is what it costs per room—

Size	No. 1	Clear	Size	No. 1	Clear
8x10	\$ 6.74	\$ 7.49	14x14	\$16.44	\$18.27

**EXTRA WEAR FROM SHOES**

"A year ago I had my shoes re-soled with Neolin Soles. The soles are still in service, and it looks as if I would not be able to wear them out, because the uppers are going first," said W. C. Dickinson, of New Haven, Conn.

Good repair shops everywhere carry these tough and durable soles. See for yourself how long they last by having them put on a pair of old shoes. Or if you are in need of new shoes, buy them with Neolin Soles. They cost no more than soles that give less wear, and you need fewer pairs. They come in many styles for men, women, and children.

Neolin Soles are created by Science to be comfortable and waterproof, as well as long-wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

**INTERESTING NEWS FROM SOLDIER BOYS**

FROM EARL HEIN

March 3, 1919

My Dear Mother:—

This being the anniversary of our leaving France I thought you might enjoy a few lines, even if they do not contain much news. It was just one year ago this morning that I left home and went to the front. I got on the train and behind all that was near and dear to us to fight for the land which gave us opportunities that are not found here. Little did I know that I was leaving behind me and what horrible things we were destined to see. We were full of anxiety and could hardly wait until we landed on this side which is about a week or more miles from the place we love best. Looking back over the past I think the American soldiers have done wonderful things in every way and at times they were treated as well as the (as Americans) deserved, but now that it is over I don't think any one begrudges his time to Uncle Sam. Altho the old outlaws like ours are not on their way home instead of being in occupation or in eastern France. The first year has been stuffed so full of things that I can't take a book to write them so I will not try for a couple reasons. One is that if I do tell you now I won't have anything to talk about when I return and the other is that I haven't got enough paper. Enclosed you will find a service stripe. We call them "hash marks" and it means six months foreign service. I took this one out today and put on two which to me has quite a significance as it means one long year in France. Looking ahead the time seems to drag but looking backward it seems that it was only yesterday when we left home. It will not be long before I will be twenty six and well on the road to being a bachelor. Sounds awful, does it not? I am still in the tailor shop and today made 114 service stripes for all the boys who have been here a year. We have a good many new faces in the outfit as we lost quite a few men in battle. One of our companies lost over a hundred men and our company was lucky as we lost only about eighteen or twenty. My old battery had to meet the Grand Rapids boys again. They were not at the front and all I can say is that in a way they were lucky because quite a few of them might not have gone home. I met my pal E. Hagar and spent yesterday with him. They brought a Victrola with them and we had a great time. Louis Fritz is the cook and he made a pie for a few of us and it sure tasted good.

I guess the boys were as glad to see me as I was to see them, but they sure can ask questions and I thought they would never get through in fact they did not but I left after having promised them that I would try to get back and I think I will try to get back with Battery D, just to be able to go home with them. Ned Meier is as fat as can be and looks fine. I might say all the Grand Rapids boys look good and are real healthy. They had ought to as they have had it pretty soft and booze was the only thing they had to fight outside of probably a few coppers. Well I will have to close hoping it will find you as well as is your loving son,

Earl

P. S. It has not stopped raining yet and when it does will celebrate. Full for the 32nd Division which includes the 37th P. A. of which the 120 P. A. is a part and pound that state senator on the back. Believe me Gov. Phillips is done as far as the 32nd Division is concerned and their vote will count in the next election.

FROM J. B. KOTLEWSKI

Co. B, 10th M. G. Feb. 24th, 1919

Dear Mother: I am with the Army of Occupation and have just visited Coblenz which is a nice place but the streets are hardly wide enough for two teams to pass and there are no sidewalks on some of the streets. Candy is a very scarce article in fact I haven't seen any here. Rabbits are plentiful and can see them in bunches of four or five, weighing from 10 to 12 pounds. I killed one with a stone. I saw a deer which I could have hit with a stone, it was so near.

I have not seen any of the boys I knew since I came overseas. Only a few that I came overseas with are with me now. I expect to be home in the spring.

I am sending you some poetry of our division which is as follows: You can talk about your Rainbow, Sunset and Keystone Division too, But let me have the pleasure to introduce the fighting Fourth to you. You will find every state in the union and every nation represented there and when it comes to scrapping the fighting Fourth is a force to be feared. We were in the drive in Chateau-Thierry and down on Vesle too.

And in the Bois-de-Argonne we cut our way right through the Kaiser's line. And when the Kaiser heard of this, he pulled his hair and cursed. Though he sent up 10 divisions to stop our gallant push. But his efforts were useless and his troubles were in vain. For the fighting Fourth was ready and drove them back again. Our infantry was fearless and kept them on the run.

And our gallant machine gun companies pushed off every Hun. And our brilliant Fourth artillery, they sure made things burn. Our aerial forces were in line and flew across the Hotties' lines. They brought us information that came in mighty fine. Than take our signal corps, their job is not a cinch.

And you can always find them handy when needed in a pinch. Our Red Cross boys were busy bringing wounds from the brush. And our ambulances were busy, always in a push. And let our fallen comrades' memory go in the hall of fame. The fighting Fourth is made of men who dare and do.

That how we got our name, The gallant Fourth kept fighting and drove Bill from the front. And now the war is over, U. S. for home sweet home.

My Souvenir

The souvenir I'm taking home, Is not a German knife, It's not a bunch of ringlets, Nor yet a German hat.

It's not a brazen buckle, Embazoned with "Miles Uns," It's not a bunch of ringlets, Nor yet a German hat.

It's not a German button, Gas mask or piece of dress, With souvenirs of that sort, I just bid the S. O. S.

Such souvenirs are only trash, And cluttering up the home. The souvenir I'm taking home, Is my mother's son's home.

Pet. Jos. Kotlewski, Co. B, 10 M. G. Bun.

# JUNCTION CITY MAN HURT IN DYNAMITE EXPLOSION

Sylvester Pavlovski, who resides near Junction City, is a patient at the Stevens Point hospital, as the result of injuries he received when blasting stumps with dynamite on his farm on Monday noon.

Pavlovski placed a charge of dynamite under a stump and when it failed to explode, went to the place to investigate. Just as he reached the stump the charge exploded, severely injuring him. He is temporarily blinded, although it is believed that his sight may be restored. Sand, gravel and pieces of wood from the stump struck him in the face, cutting and bruising the flesh and skin. He also received several flesh wounds on his hands and arms which required several stitches when he arrived at the hospital.

Pavlovski was able to walk to his home after the accident and then members of his family took him to Stevens Point for medical attention.

# WOMAN BURNED TO DEATH

Wantonn Argus—Yesterday a most terrible accident occurred at the home of Emil Kreuger near Crystal Lake when Mrs. Kreuger received burns that resulted in her death last night. While helping her husband burn brush her clothing caught fire and before it could be extinguished, she was so badly burned that she died from the effects. Mr. Kreuger's hands were badly burned in his frantic efforts to put out the flames. Mr. Kreuger is left with three small children and his aged mother who is not able to help care for them.

# FLYING STICK PERCEDED EYE

Gil Holcomb, of Colburn, a little hamlet near Hancock, lost his right eye last week when a stick flew from a saw, crushing a bone in his cheek and the eye. Holcomb was operating a wood sawing machine on his farm when the accident occurred.

# ALMOND LIEUTENANT HONORED

Second Lieut. Jacob Lienhard of the Fifth United States Marine corps who lives with his mother at Almond, Wis., has received the distinguished service cross, for extraordinary heroism near St. Etienne, France, on Oct. 4, 1918. Lieut. Lienhard led his men in an attack on a strongly held enemy position through heavy machine gun and shell fire, and although severely wounded, continued to lead and encourage his men.

We do not know much. But we do know that if you trust the kind of man whose dog tries to crawl under the house when the man gets home you are going to get stung.

It doesn't help much to be absent minded. You can't forget the things that you want to forget.

It is hard to make a wife believe that an automobile isn't necessary in the pursuit of happiness.

# WOOD COUNTY SCHOOL HAS ADOPTED FRENCH ORPHAN

Pittsville Record—There is a very small percentage of the rural schools of this state, and of other states, for that matter, that can claim the distinction of accumulating to District No. 3, of the Town of Wood, commonly known as the Erickson District.

This enterprising school district, is the proud possessor of a paper certifying that it has adopted a French orphan, Henri Gailion, by name age 10 years, living at Souche pro Niort, Deux Seines, France. The paper came from the state authorities having this work in hand to Miss Sadie M. Packard, the clerk of the district, and a notation is appended stating that if the scholars of the district wish to correspond with the little orphan to translate from the English to French or from the French to English. Also it is noted that time should be given for correspondence, on account of the poor mail conditions in France at present, allowing at least three months for the transmission one way.

The instrument was brought to the Record office by Isaac Erickson, a member of the school board, who feels as proud of it as a boy with his first pair of new boots. The money was raised from the proceeds of basketball socials given at the school house. This article would be incomplete without mentioning the name of the enterprising teacher, Miss Mary Schultz, whose home is near Arpin.

Probably for the first time in history the old boast of "Bigger and Better Than Ever" when the circus makes its annual appearance will have some effect when the combined shows of Ringling Brothers and Barnum & Bailey drop around next summer to stage their little entertainment. An announcement has been made that those shows are consolidated and promise to live up to the old time worm threat of being the biggest in existence.

Many a June bride who expected an automobile this spring has just about made up her mind to compromise and accept a washing machine.

# EXTRA WEAR FROM SHOES

"A year ago I had my shoes re-soled with Neolin Soles. The soles are still in service, and it looks as if I would not be able to wear them out, because the uppers are going fine," said W. C. Dickinson, of New Haven, Conn.

Good repair shops everywhere carry these tough and durable soles. See for yourself how long they last by having them put on a pair of old shoes. Or if you are in need of new shoes, buy them with Neolin Soles. They cost no more than shoes that give less wear, and you need fewer pairs. They come in many styles for men, women, and children.

Neolin Soles are created by Science to be comfortable and waterproof, as well as long-wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

**Neolin Soles**

# INTERESTING NEWS FROM SOLDIER BOYS

# FROM EARL HEIN

March 3, 1919

My Dear Mother:—

This being the anniversary of our leaving for France I thought you might enjoy a few lines, even if they do not contain much news. It was just one year ago this morning that we got on that transport and headed for France, leaving behind all that was near and dear to us to fight for that which gave us opportunities that are not found here. Little did we dream or think of what beautiful and what horrible things we were destined to see. We were full of anxiety and could hardly wait until we landed on this side which is about 9000 or more miles from the place we love best. Looking back over the past I think the American soldiers have done wonderful in every way and at times were not treated as well as they (as Americans) deserved, but now that it is over I don't think any one begrudges his time to Uncle Sam. Altho the old outfits like ours and the 26th and 42nd divisions should be on their way home instead of being in occupation or in eastern France.

The first year has been stuffed so full of things that it would take a book to write them so I will not try for a couple reasons. One is that if I do tell you now I won't have anything to talk about when I return and other is that I haven't got enough paper. Enclosed you will find a service strip. We call them "hash marks" and it means six months foreign service. I took this one today and I think it is one which to me has quite a significance as it means one long year in France. Looking ahead the time seems to drag but looking backward it seems that it was only yesterday when we left home. It will not be long before I will be twenty six and well on the road to being a bachelor. Sounds awful, does it not?

I am still in the tailor shop and today made 144 service stripes for all the boys who have been here a year. We have a good many new faces in the outfit as we lost quite a few men in battle. One of our companies lost over a hundred men and our company was lucky as we lost only about eighteen or twenty. My old battery is here and it sure does my heart good to meet the Grand Rapids boys again. They were not at the front and all I can say is that in a way they were lucky because quite a few of them might not have gone home. I met my pal E. Huger and spent yesterday with him. They brought a Victrola with them and we had a great time. Louis Fritz is the cook and he made a pie for a few of us and it sure tasted good.

I guess the boys were as glad to see me as I was to see them, but they sure can ask questions and I thought they would never get through in fact they did not but I left after having promised them that I would try to get back and I think that before long I will be back with battery D, just to be able to go home with them. Ned Meiser is as fat as can be and looks fine. I might say all the Grand Rapids boys look good and are real healthy. They had ought to as they have had it pretty soft and booze was the only thing they had to fight outside of probably a few coolies. Well I will have to close hoping it will find you as well as is your loving son,

P. S. It has not stopped raining yet and when it does will celebrate. Pull for the 32nd Division which includes the 57th P. A. of which the 120 P. A. is a part and pound that state senator on the back who believes Phillips until we get home. Believe me Gov. Phillips is done as far as the 32nd Division is concerned and their vote will count in the next election.

FROM J. B. ROBLEWSKI

Co. B, 10th M. G.  
Feb. 24th, 1919

Dear Mother:

I am with the Army of Occupation and have just visited Coblenz which is a nice place but the streets are hardly wide enough for two teams to pass and the bare sidewalks on some of the streets. Candy is a very scarce article in fact I haven't seen any here. Rabbits are plentiful and can see them in bunches of four or five, weighing from 10 to 12 pounds. I killed one with a stone. I saw a deer which could have hit with a stone, it was so near.

I have not seen any of the boys I knew since I came overseas. Only a few that I came overseas with are with me now. I expect to be home in the spring.

I am sending you some poetry of our division which is as follows: You can talk about your Rainbow, Sunset and Keystone Division too, But let me have the pleasure to introduce the fighting Fourth to you. You will find every state in the union and every nation represented there And when it comes to scrapping the fighting Fourth is a bear. We were in the drive in crazy Clutch-Thierry and down on Veslo too!

And in the Bois-de-Argonne we cut our way right through, And when the Kaiser heard of this, he pulled his hair and cursed; Though he sent up 10 divisions to stop our gallant rush; But his efforts were useless and his troubles were in vain. For the fighting Fourth was ready and drove them back again. Our infantry was fearless and kept them on a run. And our gallant machine gun companies pushed off every Hun; And our brilliant Fourth artillery, they sure made things hum. Our aerial forces were fine and flew across the Heister lines; They brought us information that came in mighty fine; Then take our signal corps, their job is not a cinch; Our gun can always find them handy when needed in a pinch. Our Red Cross boys were busy, bringing wounded from the brush, And our ambulances were busy, always in a push; And let our fallen comrades' memory go in the hue of France! The fighting Fourth is made of men who dare and do. That how we got our name, The gallant Fourth kept fighting and drove Bill from the throne, And now the war is over, U. S. for home sweet home.

My Souvenir  
The souvenir I'm taking home, Is not a German goat, It's not a German trench knife, Nor yet a German hat. It's not a broken buckle, Embazoned "Got Mit Uns," It's not a bunch of ringlets, Off driftable balloons. It's not a German button, Gas masks or pieces of dress, With souvenirs of that sort, I just bid the S. O. S.

Such souvenirs are only trash, And of them I'll have none. The souvenir I'm taking home, Is my mother's only son.

Pvt. Jos. Kotlewski,  
Co. B, 10 M. G. Div.

## CPL. SCHLIG FINDS RELATIVES ABROAD

To be stationed in the very town in Germany in which his mother was born is the good fortune which Cpl. Matt Schlig of this city tells to his parents in a letter received by them this week. Mr. Schlig also tells of expecting many of his relatives over there and while he states that he expected his experiences were about at an end, he has found that they are just started.

In part, the letter says:

"I know that this letter will bring you sorrow and also joy.

"Now to start with I will say that I go into Platt every day and I never knew until Friday night that you were born there. Uncle Peter arrived in Ochtingen Friday, Feb. 21. We sat up until midnight talking about you and your folks and believe me I was interested in every word he said. The next morning (Saturday) he came to my room and we talked until about 11 a. m. when he said, 'Now George, we will go to Plaidt and see your mother's birthplace.' We started out on foot to Plaidt and first he called my attention to Wernsbeck and then he showed me Humrich and he said that you remembered these places real well. Then we came to some men who were working on the road for me and Uncle and I stopped as he knew several of them and came to find out they knew you real well. Their names were Anton Somborn, Heinrich Lohner and several others. 'Then Uncle said we will go and visit the birthplace of your mother, which was right close to the church, and as we stood outside and looked at it asked Uncle who lived there. Now but he said he didn't know. I said let's go in so we went and rapped on the door and I said to the lady, 'I want to see this house.' The people were dumfounded, and I did not know what to say so finally I told them that this was my mother's birthplace and that I had to see it, and we went in and looked it over."

After visiting the house Cpl. Schlig and his uncle looked up some of his mother's other relatives and saw the church in which she was baptised. "Now every body in Plaidt knows you and they send their best regards," George writes to his mother. In telling of his mother's sister, Katie, George states that they have several children and that in one of the big battles he fought against the German division of which his cousin was a member, "So you see we ought to have exchanged a few shots and didn't know it," he says. Mrs. Schlig's brother, Tony has been located according to the letter and it states that he had four sons in the war, one of whom has been missing for about two years.

The letter bears the sad news that Mrs. Schlig's father died over there on the first of February after a short illness. Before his death the elderly gentleman gave George's uncle, who was with him, a pearl handled pocket knife which he entrusted him to keep, telling him that this was a remembrance from his daughter Annie's husband, who is Matt Schlig of this city. Mr. Schlig had sent the knife to Germany as a gift in 1903.

In a message to his father George says:

"Uncle Peter came to see me again on Tuesday, February 25th, and let's again at Plaidt on Thursday. While he was here we took some pictures of the home mother was born. Your father and mother also came from this part of the country, only five miles from Plaidt and a week from tomorrow when Auntie and Uncle come again we are going to see if we can't find some of your relatives."

"That rumor of coming home in sixty days is a shot again so if I am home for Christmas I will consider myself lucky. Yesterday I received a card from Ward Johnson who is at Bender; just about 25 kilometers from here. We came thru there on the way up here.

"An old holding down my job as road commissioner and now have 200 Eches on the job."

Your son,  
Cpl. Geo. L. Schlig, Co. B, Sixth U. S. Engineers, A. E. F. A. P. O. 740.

(Written by an ex-soldier)

## That \$60 Bonus

"All we do is sign the payroll, and we never get a ---- but this time we get a real life-size pay check from Uncle Sam and no payroll to sign either

"I just got my li'l old \$60.00 check yesterday. And since this is Dress-Up week (April 5 to 13), I decided to invest the money in a brand new outfit of civies.

"Say, I'm all togged out now with a Spring suit made by that old reliable concern

## THE HOUSE OF KUPPENHEIMER

"It's one of those new waist-seam models—you know, you've heard about them. With the balance of the sixty I got a new hat, a new pair of 'kicks,' a couple of good-looking shirts, and a 'doggy' necktie.

"I called on the little girl last night—can't tell you the nice little things she said—that's a secret—but I decided right there that I couldn't have invested the \$60 any better.

---N. X. Soldier.

"P. S. Take a tip from me, if you haven't bought your Spring dress-up outfit yet, it'll pay you to look over the new Kuppenheimer Clothes at--"

**JOHNSON & HILL COMPANY**

GRAND RAPIDS, WISCONSIN

**CPL. SCHLIG FINDS RELATIVES ABROAD**

To be stationed in the very town in Germany in which his mother was born is the good fortune which Cpl. George Schligh, son of Mr. and Mrs. Matt Schligh of this city, tells to his parents in a letter received by them this week. Mr. Schligh also tells of meeting many of his relatives over there and while he states that he expected his experiences were about at an end, he has found that they are just started.

In part, the letter says:

"I know that this letter will bring you sorrow and also joy.

"Now I start with I will say that I go into Platt every day and I never knew until Friday night that you were born there. Uncle Peter arrived in Ochtersburg Friday, Feb. 21. We set up until midnight and talked about you and your folks and believe me I was interested in every word he said. The next morning (Saturday) he came to my room and we talked until about 11 a. m. when he said, 'Now George, we will go to Platt and see your mother's birthplace.' We started out on foot to Platt and first he called my attention to Werneseck and then he showed me Werneseck and he said that you remembered these places real well. Then we came to some men who were working on the road for me and Uncle and I stopped as he knew several of them and came to find out they knew you real well. Their names were Anton Somborn, Heinrich Lohner and several others. 'Then Uncle said we will go and visit the birthplace of your mother, which was right close to the church, and as we went out and looked at it I asked Uncle who lived there now but he said he didn't know. I said let's go in so we went and rapped on the door and I said to the lady, 'I want to see this house.' The people were dumfounded and didn't know what to say so finally I told them that this was my mother's birthplace and that I had to see it, and we went in and looked it over."

After visiting the house Cpl. Schligh and his uncle looked up some of his mother's other relatives and saw the church in which she was baptized. Cpl. Schligh's brother, in Platt, knows you and they send their best regards. George writes to his mother. In telling of his mother's sister, Katie, George states that they have several children and that one of the big battles he fought against the German division of which his cousin was a member, "So you see we might have exchanged a few shots and didn't know it," he says. Mrs. Schligh's brother, Tony, has been located according to the letter and it states that he had four sons in the war, one of whom has been missing for about two years.

The letter tells the sad news that Mrs. Schligh's father died over there on the first of February after a short illness. Before his death the elderly gentleman gave George's name, who was with him, a pearl handled pocket knife which he entrusted him to keep, telling him that this was a remembrance from his daughter Annie's husband, who is Matt Schligh in this city. Mr. Schligh and sent the knife to Germany as a gift in 1903.

In a message to his father George says:

"Uncle Peter came to see me again on Tuesday, February 25th, and let's again at Platt on Thursday. While he was here we took some pictures of the home mother was born in. Your father and mother also came from this part of the country, only five miles from Platt and a week from tomorrow when Auntie and Uncle come again we are going to see if we can't find some of your relatives."

"That rumor of coming home in sixty days is all shot again so if I am home for Xmas I will consider myself lucky. Yesterday I received a card from the war department who is at Bender just about 25 kilometers from here. We came thru there on the way up here.

"Am I holding down my job as road construction and now have 200 horses on the job."

Your son,  
Cpl. Geo. L. Schligh, Co. B, Sixth U. S. Engineers, A. E. F., A. P. O. 740.

Many Children Are Sickly. Mother Gray's Sweet Powders for Children break up Colic and Stomach Troubles, relieve Feverishness, Headache, Stomach Troubles, Greasy Diarrhea, and regulate the bowels and destroy worms. They are so pleasant to take children like them. Only by mothers for over 30 years. All druggists. Sample FREE. Address: Mother Gray Co., 100 N. 3rd St., St. Paul, Minn.

It's an easy matter to fool any one—with the exception of yourself.

## SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

Why Druggists Recommend SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists and is as sure as it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper—Adv.

Conservation. Jimmy is a small 10-year-old and very unpopular with the family just now. He reckons time from a handful of Hiram's marbles, and has reduced the use of soap and water to a fine point. The other morning he was, as usual, late at breakfast. Plainly his father mounted the steps a few at a time only to come on Jimmy in the bathroom door looking complacently into his mother's hand mirror.

"What are you doing with that mirror?" his father asked, indignantly. "Trying to see what kind of a face I wash," he answered, promptly.—Indianapolis News.

His Handicap. "Here, you blundering boob! What's the matter with you?" snarled a pedestrian who had collided with Jud Jostle of (Grange), who was wallowing around in Kansas City's gutter. "Confound your clumsiness! Why don't you keep to the right?"

"Cuz I can't," answered the offender. "I'm left-handed, and I got so rattled that I keep forgetting which is which."—Kansas City Star.

Ponderous. "I understand they danced until the wee small hours at your wife's party." "That's what they say," replied Mr. Cummins. "But I can't see it. After 12 o'clock, when I am waiting to go to bed, those hours seem impressively large and slow-moving."

Habit is a sort of chattel mortgage on a man's individuality.

## STORIES of AMERICAN CITIES

### Professor Keeps Hens Up Late to Make Them Lay

ITHACA, N. Y.—Pullets dining at nine o'clock every night and outlaying the most seasoned hens; electric or other lights in every coop, and better health for chickens are predictions for the immediate future in the poultry world by Prof. James E. Rice of the department of poultry husbandry, Cornell university.

Professor Rice states that tests carried on at Cornell during 48 weeks of the laying capacity of more than 200 hens and pullets have proved that lights in chicken coops have a direct effect on the production of eggs. The coops were kept lighted until nine o'clock every night, and the egg totals showed that 100 hens and pullets in the lighted chicken houses produced 135-140 dozens more eggs than the chickens that went to bed when the sun went down.

In money, wholesale prices, the increased dozens of eggs in the lighted coop amounted to \$71.88. In each chicken house the 100 layers were 55 pullets and older hens and the pullets beat the seasoned layers in number of eggs produced. The light had no other effect on the poultry except that they maintained somewhat better health.

The average increase in production of eggs for hens in lighted coops is placed at "one dozen or more" per year by Professor Rice. The poultryman has control over the egg production by turning the light switch. Laying pullets quit laying when the lights were turned off for a period and began again when the lights went on.

### Rio Grande "Kidnaps" Texas Farmer Into Mexico

HIDALGO, TEX.—One of the most remarkable cases of "kidnaping" ever known in the lower border region of Texas has come to the attention of the United States and Mexican authorities. Jose Cantu, a peaceful land owner and valley farmer, who has lived all his life in Texas, was bodily transferred to Mexico by a recent rise in the Rio Grande. Along with him went 400 acres of his most productive land and many head of live stock.

Under past decisions of the international boundary commission the center of the bed of the Rio Grande is the dividing line between the United States and Mexico. This shifting of the course of the erratic river places Mr. Cantu and much of his property on the Mexican side of the stream and, according to the Mexican authorities, he is now amenable to the laws and taxes of that country.

Upon Mr. Cantu's transplanted farm are a number of homes of employees who were also American voters until the river changed its course. To further complicate matters, the Mexican customs authorities are insisting that Mr. Cantu shall pay duty on his live stock and other property that has found its way to that country by no consent of his.

Off-Told Tale of the Girl in the Country Town

DENVER.—Her father—mentioning no names—searched for her many months. He traced her here and knocked on the door of her room in a cheap hotel, calling out, "It's dad, honey, come to take you home."

He had come from the little Illinois town. One can visualize the town. The main street, its faded sidewalks, the little drug store on the corner, the drug store on the corner where pallid soda is dispensed to the village beaux and their belles at night after the band concert down on the square; the post office, rendezvous of Mocher Grundy and her satellites; the depot, where all the town goes for its daily pleasure, seeing the druggist's slight from the train, or Banker Jones return from a business trip to the city, or the cheap burlesque bunch arrive to give a golden interpretation of Life at the city house.

The girl was satisfied there until she went to the big city to visit her sister, who married well. Then came discontent. No doubt the daily contrast—the monotony of the village routine against memory's background of bright lights, surging crowds, shifting scenes—spelled unrest for her. She perhaps was braver than thousands of her sisters in like surroundings, in all the towns of the kind scattered over the country. She finally bolted. She sought Life. She is dying now, victim of poison, self-administered. She has drunk the cup to its dregs.

There may be no moral to this. The death of a few girls more or less in the cities, country girls who answered the lure, probably could never serve to stay other girls from following the will-o'-the-wisp that calls cityward. But perhaps some day the church, and the municipal administrations, and the women's clubs will take steps—practical steps—to save these girls from themselves, and the beasts who prey, when they come. Mere preaching and tracts won't do it. The prim path never appeals to Youth above the primrose path.

### When Cupid Helped Mirandy to Run the Elevator

NEW YORK.—Now, there is Mirandy. Mirandy used to be a general house worker, and discontented. Now she's one of the elevator girls in a big office building and contented. I think she's a very dressy person. And if she couldn't run an elevator all day with corset three inches too tight, and a blouse that all the draft of 15 stories blows through, and heels so high that one can't see how a human being can manage them!

The other day when the elevator was full of passengers at the ground floor, Mirandy paid no heed to the command of the aged male starter to get her car under way. She stood leaning out her door, one hand on the cage and one on the wheel, her right foot out in the rear, like a statue of the Flying Mercury. While the passengers fidgeted and the starter glowered Mirandy smiled and smiled, her eyes looking through him and out upon the sunny street.

And then everybody saw what detained her. A young colored gentleman in a tawn-colored derby and a cane had stooped over from the opposite side of the street and was coming into the building. "Waitin'!" cried Mirandy, coqueting. He entered the car, and the starter was obeyed—at last.

But what a ride it was! Could Mirandy be expected to stop without jerking and going by each floor signalled, when she had an ardent admirer bending over her? Surely not!

One by one the luckless passengers escaped, and only the writer and the admirer were left with Mirandy. The writer wanted to go to the eighteenth floor; the admirer got off at the seventeenth story. "Wait for me, honey," he said; "I'll be gone only a minute."

The elevator made for the eighteenth floor—but stopped before it got there. Mirandy then, despite the rude remarks of her sole passenger, produced a rose-colored patent-leather vandyke case and proceeded to make up! She balanced the case nicely on the elevator wheel, so that its mirror was tilted at a convenient angle, and got busy with a lip stick, very red rouge, and a remarkable smoky mess used as face powder by colored folks of quality. She pulled out her hair and smoothed her collar.

No. 17 buzzed and down she went! Nothing could have detained her. The writer rode downward with Mirandy and her lover, white floors signalled in vain—and all the world was wrapped up in love-making.

### Eddie Zoufal's Young Canary That Never Sang

CHICAGO.—Eight years ago Eddie Zoufal's father brought a canary into his home, 3132 South Millard avenue, and gave him the name of Joie. Joie was a singer extraordinary. The children adored him. Six months ago, however, he ceased to sing. The children knew he was sick. They did everything they could for him, but Joie died and was buried and mourned. The house seemed dismal and lonely without that cheerful, friendly voice.

Eddie went to work. He got \$7 a week, and every day his mother allowed him to keep \$1 to do with as he wished. Eddie saved it to buy another Joie. On his fifth pay day he could hardly wait until after supper to go down to the Atlantic and Pacific bird store, 327 West Madison street.

bird store, 327 West Madison street.

## New Weaves and Shades in Serge

Spring Coats Are of the Box Type—Skirts Are Plain and Narrow.

### NEW-MATERIAL FROM LONDON

Waistcoats Add the Needed Touches of Color, While Heavy Braiding of Varying Type Remains in Favor.

For so long a time now women have come to accept the tailored coat suit as the very foundation of their wardrobe that it is the first consideration as the seasons change. Especially in this time of the average woman whose wishes are controlled by expediency and determined by absolute need. There is no doubt about the fact, writes a prominent fashion correspondent, that American manufacturers have developed the supreme art in the making of the coat suit. It is now possible to buy such suits, so well built, so perfectly designed, that few tailors can excel, for as great care is given to detail as the master makers themselves can show.

Some foreign critic has said that there is such a monotony about the clothes of American women that it is as if everyone were trying to be as much like her neighbor as possible, and originality is an unknown sartorial art in this country. I am sure this critic must have referred to the blue serge suits, for it is undeniably the custom to clothe ourselves in dark blue, resting secure in the choice of color and its suitability for all occasions.

Let none hesitate this spring, for our favored blues are delightful to behold and lovely to wear. The smart little box coat with its vest of contrasting material is the model most in evidence at the opening of the spring showing. A new material coming from London is a dark blue basket weave, loosely enough woven to be almost transparent and resembling the summer crasses of some seasons back, except that it has a smoother surface.

Plain and Narrow Skirt. One suit of this material has the same narrow and very plain skirt seen in all of the other models. The coat is of the box type, shorter than most

scribe the beauty and richness of the new broadens which are used in this fashion. They are of almost barbaric splendor in a blending of superb colors with silver and gold threads.

Of course the girl now and then has a sash to give a draped line over the hips, such as shown in the London model I have mentioned above, but as yet the box coat for the greater number of models reaches so far below the waist line that the sash does not appear and is not necessary.

We shall tire of these gorgeous bits of color as the weather grows warmer and demand the simpler things of batiste, organdie and washable fabrics so much a part of the summer and so crisp and fresh. Plaque and linen have been cleverly blended in a smart waistcoat with the narrowest of black satin piping showing between the rows of the tiny plaits of linen, such as appear in men's shirts. It is understood, I am sure, that few girls show any collars, but faster at the shoulders or button around the neck under the coat in the back just like the little dickies in small boys' sailor suits.

A variation of the gilet is the linen smock, and by a curious fancy it is really unusual enough to be good looking. For instance, a sky blue linen smock is worn underneath a box coat of dark blue gabardine. The smock hangs perfectly plain, like a Clinkman's coat in the front and shows through a slashing in the sides of the coat. No belt or sash confines the straight lines anywhere.

Coat Dress in Favor Too. The coat dress is highly favored this year. It is developed in many pleasing ways, as, for instance, in a combination of blue taffetas and serge, showing a narrow and pulled-in petticoat of the serge, over which is worn the long blouse of blue silk thickly beaded in dull red and blue beads. At the waist there is a narrow belt of the beads falling in looped ends to the bottom of the skirt.

This is one of the best examples of the coat dress, as it has long sleeves of serge reaching to the wrist, and a collar of the taffetas thickly beaded and reaching nearly to the ears.

By the way, this sort of design offers an excellent way to "make over," a thankless job and, as a rule, an unsuccessful one, but one most women undertake nevertheless.

Though we shall see more of the short coats than the long, it does not mean that the long coat is not a la mode, for there are figures which cannot stand the thick, short look of the little hip length coat, and as our fashion makers are kind just now, there is no absolute decree as to length.

Skirts are much longer, though we hear that Paris makers have them so much shorter. Why is it the English women never seem to be in a rage over the length of their skirts, but go along quietly year in and year out in a sensible length and fashion comfortable and sane?

American women "dress up" as they live, never attaining comfort as they grow old, but always struggling to be stylish. Perhaps one reason for this is that over here fortunes are made so quickly and many women denied the things they craved in their young days are only able to attain them as they pass their youth and fling themselves into an indulgence of style which never permits comfort and unfortunately too often does away with dignity.

One-Fabric Tailored Frocks. In the latest showing of tailored frocks for street wear there is a growing tendency to feature one fabric affairs. This is a dress will be entirely of satin or entirely of serge rather than a combination of the two materials, as in seasons past and during the first days of the present season.

Although fringes have worn out its welcome in some quarters because it has been used too persistently, it is still one of the most effective trimmings the home dressmaker can possibly use. It is easy to apply and it gives weight to the edge of the dress.

Woolen embroidery is one of the extremely good looking trimmings. The embroidery is usually in some rich contrasting color and adds much spirit to a plain dark dress. But it is not the easiest thing in the world to work in wool. To help you in this respect there is wool embroidery on a thin net foundation that can be applied to the place desired with exactly the same good result that you would get if you worked the stitches directly on the fabric.

One-Fabric Tailored Frocks. In the latest showing of tailored frocks for street wear there is a growing tendency to feature one fabric affairs. This is a dress will be entirely of satin or entirely of serge rather than a combination of the two materials, as in seasons past and during the first days of the present season.

Although fringes have worn out its welcome in some quarters because it has been used too persistently, it is still one of the most effective trimmings the home dressmaker can possibly use. It is easy to apply and it gives weight to the edge of the dress.

## DANDRUFF MAKES HAIR FALL OUT

A small bottle of "Danderine" keeps hair thick, strong, beautiful.

Girls! Try this! Doubles beauty of your hair in a few moments.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine for a few cents at any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—surely can have beautiful hair and love it if you will just try a little Danderine—Adv.

A man who neglects his own business can't be troubled to look after other people's affairs.

## In The Spring-Time.

Any fool knows enough to carry an umbrella when it rains, but the wiseman is he who carries one when it is only cloudy. Any man will send for a doctor when he gets bedfast, but the wiser one is he who adopts proper measures before his ills become serious. During a hard winter or the following spring one feels rundown, tired out, weak and nervous. Probably you have suffered from colds or influenza which has left you thin, weak and pale. This is the time to put your system in order. It is time for house-cleaning.

A good, old-fashioned alternative and temperance tonic is one made of wild roots and barks without the use of alcohol, and called Dr. Pierce's Golden Medical Discovery, in tablet or liquid form. This is nature's tonic, which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system.

Indianapolis, Ind.—"I am most pleased to say for 'Golden Medical Discovery' that I like it as a spring medicine. I was involved in a dark hour and used it for a toning-up medicine. As a general tonic I know of nothing better. You may use the recommendation to benefit others."—Mrs. G. P. Deann, 733 Elm St.

Boil just like coffee

Boil thoroughly (15 minutes after boiling begins) make it rich and dark and you have something that makes your meal doubly enjoyable.

"There's a Reason"

At Grocers—two sizes 15c & 25c.

## STORIES of AMERICAN CITIES

### Professor Keeps Hens Up Late to Make Them Lay

THACA, N. Y.—Pullets dining at nine o'clock every night and outlaying the most seasoned hens; electric or other lights in every coop, and better health for chickens are predictions for the immediate future in the poultry world.

Prof. James B. Rice of the department of poultry husbandry, Cornell university.

Professor Rice states that tests carried on at Cornell during 48 weeks of the laying capacity of more than 200 hens and pullets have proven that lights in chicken coops have a direct effect on the production of eggs. The coops were kept lighted until nine o'clock every night, and the egg totals showed that 100 hens and pullets in the lighted chicken houses produced 135-140 dozens more eggs than the chickens that went to bed when the sun went down.

In money, wholesale prices, the increased dozens of eggs in the lighted coop amounted to \$71.88. In each chicken house the 100 pullets were 55 pullets and older hens and the pullets beat the seasoned layers in number of eggs produced. The light had no other effect on the poultry except that they maintained somewhat better health.

The average increase in production of eggs for hens in lighted coops is placed at "one dozen or more" per year by Professor Rice. The poultryman has control over the egg production by turning the light switch. Laying pullets quit laying when the lights were turned off for a period and began again when the lights went on.

Further, the professor states that the average increase in production of eggs for hens in lighted coops is placed at "one dozen or more" per year by Professor Rice. The poultryman has control over the egg production by turning the light switch. Laying pullets quit laying when the lights were turned off for a period and began again when the lights went on.

### Rio Grande "Kidnaps" Texas Farmer Into Mexico

Hidalgo, Tex.—One of the most remarkable cases of "kidnaping" ever known in the lower border region of Texas has come to the attention of the United States and Mexican authorities. Jose Cantu, a peaceful land owner and valley farmer, who has lived all his life in Texas, was lately transferred to Mexico by a recent rise in the Rio Grande. Along with him went 400 acres of his most productive land and many head of live stock.

Under past decisions of the international boundary commission the center of the bed of the Rio Grande is the dividing line between the United States and Mexico. This shifting of the course of the river places Mr. Cantu and much of his property on the Mexican side of the stream and, according to the Mexican authorities, he is now amenable to the laws and taxes of that country.

Upon Mr. Cantu's transferred farm are a number of homes of employees who were also American until the river changed its course.

To further complicate matters, the Mexican customs authorities are insisting that Mr. Cantu shall pay duty on his live stock and other property that has found its way to that country by no consent of his.

## New Weaves and Shades in Serge

Spring Coats Are of the Box Type—Skirts Are Plain and Narrow.

NEW MATERIAL FROM LONDON

Waistcoats Add the Needed Touches of Color, While Heavy Braiding of Varying Type Remains in Favor.

For so long a time now women have come to accept the tailored coat suit as the very foundation of their wardrobe that it is the first consideration as the seasons change. Especially is this true of the average woman whose wishes are controlled by expediency and determined by absolute need. There is no doubt about the fact, writes a prominent fashion correspondent, that American manufacturers have developed the supreme art in the making of the coat suit. It is now possible to buy such suits, so well built, so perfectly designed, that few tailors can excel, for as great care is given to detail as the master makers themselves can show.

Some foreign critic has said that there is such a monotony about the clothes of American women that it is as if everyone were trying to be as much like her neighbor as possible, and originality is an unknown quantity in this country. I am sure this article must have referred to the blue serge suits, for it is undoubtedly the custom to clothe ourselves in dark blue, resting secure in the choice of color and its suitability for all occasions.

Let none hesitate this spring, for our favored blues are delightful to behold and lovely to wear. The smart little box coat with its vest of contrasting material is the model most in evidence at the opening of the spring showing. A new material coming from London is a dark blue basket weave, loosely enough woven to be almost transparent and resembling the summer crinkles of some seasons back, except that it has a smoother surface.

Plain and Narrow Skirt. One suit of this material has the same narrow and very plain skirt seen in all of the other models. The coat is of the box type, shorter than most

feature of this year's model. These little colored accessories are a joy to the eye and are exceedingly becoming to most figures.

Some of the newest are of organdy with little blue for the upper part and an apron effect at the bottom, while a worn outside in the front. Narrow strings hold it in place in the back and these little strings, tied in a bow, crisp and fluffy, show out from under the coat.

Tricotee, which is so silky and made in such beautiful colors, is one of the best materials to use for the tailored vest. It is very good when made up perfectly plain at the top and finished at the bottom in a series of very wide, rucks placed one above the other and showing as the box coat falls away in the front. It is not possible to de-

scribe the beauty and richness of the new broadens which are used in this fashion. They are of almost barbaric splendor in a blending of superb colors with silver and gold threads.

Of course the girl now and then has a wish to give a dropped line over the hips, such as shown in the London model I have mentioned above, but as yet the box coat for the greater number of models reaches so far below the waist line that the wish does not appear and is not necessary.

We shall find of these gorgeous bits of color as the weather grows warmer and demand the simpler things of button, organdy and washable fabrics so much a part of the summer and so crisp and fresh. Plaque and linen have been cleverly blended in a smart waistcoat with the narrowest of black with piping showing between the rows of the tiny plaques of linen, such as appear in men's shirts. It is understood, I am sure, that few girls show any collar, but fashion at the shoulder or button around the neck under the coat in the back just like the little daisies in small boys' sailor suits.

A variation of the girl is the linen smock, and by a curious fancy it is really unusual enough to be good looking. For instance, a sky blue linen smock is worn underneath a box coat of dark blue gabardine. The smock hangs perfectly plain, like a Chinese man's coat in the front and shows through a slashing in the sides of the coat. No belt or such confines the slash, it lines anywhere.

Coat Dress in Favor Too. The coat dress is highly favored this year. It is developed in many pleasing ways, as, for instance, in a combination of blue taffetas and serge, showing a narrow and pulled-in point of the serge, over which is worn the long blouse of blue silk thickly beaded in dull red and blue beads. At the waist there is a narrow belt of the beads filling in topped ends to the bottom of the skirt.

This is one of the best examples of the coat dress, as it has long sleeves of serge reaching to the wrist, and a collar of the taffetas thickly headed and reaching nearly to the ears.

By the way, this sort of design offers an excellent way to "make over," a thankless job and, as a rule, an unsuccessful one, but one most women undertake nevertheless.

Though we shall see more of the short coats than the long, it does not mean that the long coat is not a la mode, for there are dresses which cannot stand the thick, short look of the little hip length coat, and as our fashion makers are kind just now, there is no absolute decree as to length.

Skirts are much longer, though we hear that Paris makers have them so much shorter. Why is it the English women never seem to be in a rage over the length of their skirts, but go along quietly year in and year out in a sensible length and fashion comfortable and sane?

American women "dress up" as they live, never attaining comfort as they grow old, but always struggling to be stylish. Perhaps our reason for this is that over here fortunes are made so quickly and many women denied the things they craved in their younger days are only able to attain them as they pass their youth and fling themselves into an indulgence of style which never permits comfort and unfortunately too often dies away with dignity.

## DANDRUFF MAKES HAIR FALL OUT

A small bottle of "Danderine" keeps hair thick, strong, beautiful.

Girls! Try this! Doubles beauty of your hair in a few moments.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine for a few cents at any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine—Adv.

## LOCAL ITEMS

Roy Potter underwent an operation at the hospital Saturday. A baby girl was born to Mr. and Mrs. Albert Neukirk at the hospital Sunday.

Mrs. Elizabeth Nash has returned from a visit to her mother, who is recovering from a recent illness.

Raymond Thomas, who recently returned from service overseas, has accepted a position with the county at their repair shop on the west side. The shop has been getting along nicely since its opening a few weeks ago, and is in charge of Mike Lemmense. The shop takes care of the repairs on all the road and other machinery belonging to Wood County and was erected and equipped at a cost of about \$4,200. The county's machinery will be taken in each fall as devaluated, painted or any repairs needed will be made putting it out in the spring ready for work. The building is of concrete block construction and is located near the Lowell school on the west side.

When some men shake hands with you, you have to look a second time to make sure that you haven't picked up a dead fish by mistake.

Mrs. Elroy Baldwin underwent an operation at the hospital during the past week, being taken home Tuesday.

**FOR SALE**—A five passenger Ford 1912 in done Aultman touring car, at a bargain, Speltz Bros. Phone Rudolph 227.

August Zaeger of Sigel, who was injured last week in a runaway and was taken to the local hospital for treatment, was removed to his home Saturday.

Arthur Johnson of the town of Rudolph was a pleasant caller at the Tribune office Monday. Mr. Johnson stated that the roads were pretty bad and that there a number of cars stuck between this city and Rudolph.

Mrs. Lenore Herzberg, who has been at the hospital for a couple of weeks following an operation for appendicitis, returned to her home near Pittsville Wednesday.

**FOR SALE**—Hay and oats straw in the barn. Also farm for rent in town of Sigel on shares. Mrs. Alfred Trudell, R. D. 4.

Joe Vanden Berg, who lives north of Rudolph, was a pleasant caller at the Tribune office Monday, having come in to get some advertising for an auction which he will hold Wednesday, April 16th. Mr. Vanden Berg expects to leave about the 20th of the month for Little Chute, where he will reside in the near future.

Harry Starks appeared before Judge Getts Wednesday and paid a fine of \$1 and costs for speeding on Third street. Residents on this street have been complaining about the way automobiles travel on that thoroughfare and are going after the offenders.

Mr. and Mrs. N. Sage of Petoskey, Mich., are visiting at the home of the latter's mother, Mrs. Mathilda Scheuler. Mrs. Sage was formerly Miss Emma Scheuler. Miss Edith Scheuler of Milwaukee is also home for a three weeks visit with her mother.

Mrs. R. A. Weeks returned Monday from a week's visit with her sister at Rockport, Minn. She was accompanied home by two of her sisters, Mrs. E. Sargent and Grace Sherman, both of Missoula, Mont. They expected the officers and they who will spend a couple of weeks visit here and with other relatives in the state.

Edward Timm of Kellner was a pleasant caller at the Tribune office Wednesday while in the city on business. Mr. Timm reports that his truck, which he has been using for the past eight weeks, is gaining some new and hopes to be back with his usual health before long.

Frank Vasser departed on Saturday for Fond du Lac where he has again accepted a position as brakeman with the Soo Ry. Mr. Vasser was seriously hurt two years ago at Waukegan and has been unable to work since that time. Last fall he made a favorable settlement with the company for his injuries.

Herman Janku is employed in this city but whose home is in Sherry left Saturday afternoon with the intention of spending Sunday at his home at the northern part of the county. However, while traveling by near Seneca Corners his car became stuck in the mud, the result being that he didn't get home until Sunday morning. He returned Monday on the train.

**MURDERERS AND DRAFT DODGERS UP FOR LIFE**

Convicted of the murder of Harry Jensen, station agent at Withee, and of evading the draft law, Frank and Leslie Kreuger of Neillsville were given a life sentence at the state prison at Waupun last Friday.

The fight after last summer, when it is alleged the Kreuger boys were evading the drafting, two failing to register and two being deserters. The state militia was called out in the surrounding territory. Upon approaching the Kreuger homestead a fire was opened and Harry Jensen was killed. Ex-district attorney W. J. Rush said: "All of these brothers were fugitives from justice. Two were deserters from the army and two had not registered Sept. 12. They expected the officers and they who will be tried in federal court, either at Madison or Eau Claire."

**TO RED CROSS WORKERS**

On April 5th we packed and shipped the last of the Refugee Clothing Bidding all quotas assigned to this Chapter by the American Red Cross, making a total of 10,181 garments. This closes the activities of this committee of Grand Rapids Chapter, of which it has been my pleasure to be the chairman.

I am taking this opportunity to thank the ladies of all the Branches connected with this Chapter, for all the labor and material, including the generous and efficient work they have done that has earned the well merited praise of the Central Division.

The workers have all responded promptly and given generously of their time, and it is greatly appreciated by the Chapter and the Chairman of the Committee.

Mrs. E. W. Ellis, Chairman Hospital Garmets and Refugee Clothing.

**NOTICE TO CONTRACTORS**

The undersigned hereby gives notice that sealed proposals for the erection and completion of a brick and the parsonage, including all labor and material, will be received by Rev. Arnold M. Muckerheide, Auburndale, Wisconsin, until the hour of 11 A. M. on Wednesday, May 7, 1919.

Bids will be received separately on:

- General Construction,
- Heating,
- Plumbing,
- Electric Wiring.

All bids must be in strict accordance with plans and specifications prepared by Andrew Roth, architect, La Crosse, Wisconsin.

Bids are to be accompanied by a certified check in the amount of two (2%) per cent of the bid, said amount to be a guarantee that the bidder agrees to enter into contract for amount of his bid, and furnish Surety Bond as required. Said certified check to be made payable to Rev. Arnold M. Muckerheide.

Plans and specifications are on file in the office of Rev. A. M. Muckerheide, Auburndale, Wisconsin, and also in the office of Andrew Roth, architect, La Crosse, Wisconsin.

It is the intention of the owners to award the contract to the lowest responsible bidder, respectively but the right to accept any, or reject any and all bids is reserved.

Dated April 3, 1919.

Frank Markoe, Chairman of the Building Com.

**INCREASE PERSONNEL AT COUNTY'S REPAIR SHOP**

Raymond Thomas, of Sherry, who recently returned from service overseas, has accepted a position with the county at their repair shop on the west side. The shop has been getting along nicely since its opening a few weeks ago, and is in charge of Mike Lemmense. The shop takes care of the repairs on all the road and other machinery belonging to Wood County and was erected and equipped at a cost of about \$4,200. The county's machinery will be taken in each fall as devaluated, painted or any repairs needed will be made putting it out in the spring ready for work. The building is of concrete block construction and is located near the Lowell school on the west side.

When some men shake hands with you, you have to look a second time to make sure that you haven't picked up a dead fish by mistake.

## JOHNSON & HILL CO.

Grand Rapids, Wisconsin.

Save Your Cash Slips. We pay 2 per cent on \$50.00 or over.

## SPRUCE UP!

A victorious nation should dress the part. Waist Seam Suits, latest style for young men. Narrow, deep chested, athletic models in big variety of styles, patterns and prices. Caps, hats, neckties and gloves to match. Drop in and look at them. Prices are right.

## KRYPTOK GLASSES

THE INVISIBLE BIFOCALS

Kryptoks (pronounced Crip-toks), without that conspicuous age-revealing "crack" or seam, give the convenience of NEAR and FAR vision in one pair of glasses. There is not the slightest trace of a seam or lump. The two powers (the lower for close work, and the upper for distance) are joined together in one solid, smooth, crystal-clear piece. Notwithstanding the fact that Kryptoks look exactly like single-vision glasses, they enable you to see both near and far with equally keen vision. That's why they are known everywhere as the "invisible bifocals."

Call and let us give you further information, and increasing these universally approved bifocals.

I also fit Glasses and replace broken lenses of any strength or size at a very low cost from 50c up. Phone 511 and make special appointment or see me at the Citizens National Bank on every Tuesday from 1 to 3 P. M.

I pay highest market prices for Liberty Bonds and Thrift Stamps, Diamonds, 2nd hand Watches, old gold and silver.

**A. P. HIRZY**

650 8th Street N.

Grand Rapids, Wis.

## Announcing Society Brand Clothes for Spring

**Society Brand Clothes**

are clothes of the better sort for men and young men of all ages.

They proclaim alertness, good taste and care for detail; yet they are never extreme in style or pattern.

Our selections are so varied in patterns, colorings and styles, and the price range so wide, that men and young men with the most positive tastes and style preferences can make immediate selections.

The Society Brand label is the maker's guarantee of all-wool quality and your complete satisfaction.
